This vehicle is a WLTP (Worldwide Harmonised Light-Duty Vehicles Test Procedure) type approved vehicle. More information is available at www.skoda.co.uk/owners/wltp-info. Figures shown are for comparability purposes; only compare fuel consumption and CO₂ figures with other vehicles tested to the same technical procedures. These figures may not reflect real life driving results, which will depend upon a number of factors including the accessories fitted (post-registration), variations in weather, driving styles and vehicle load. Data correct as of 17th July 2023. The P11D values shown comprise of the cars list price, VAT and include extras as defined by Škoda. Škoda may change 'On the road' Recommended Retail Price prices at any time. Pricing valid as of 4th April 2023. On the road pricing includes 1st April 2023 VED rates. BIK rates valid as of 6th April 2023. Information regarding tyre technical specifications can be found by visiting the [Škoda car configurator](#).

Škoda Superb

“If you’re trying to bang a nail in, you use a hammer. A screwdriver can’t be beaten for driving in screws. And if you need to carry four adults and a big stack of luggage from place A to place B, nothing is better suited than the Skoda Superb Estate. It’s the right tool for the job.”

Commands attention from every angle

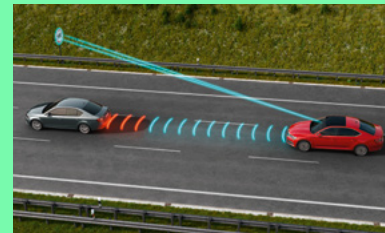

Authenticity, precision and purpose. The Superb’s design conveys each of these in style. The perfectly balanced exterior proportions, sporty silhouette and dynamic horizontal lines have been enhanced, complemented as ever by razor-sharp angles throughout.

Presented opposite are some of the standard specifications that can be found across different trims within the Superb range.

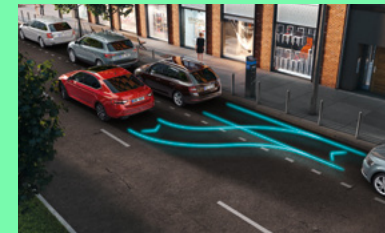

Blind Spot Detect

An extra set of eyes on the road that monitors the blind spots allowing you to manoeuvre safely.

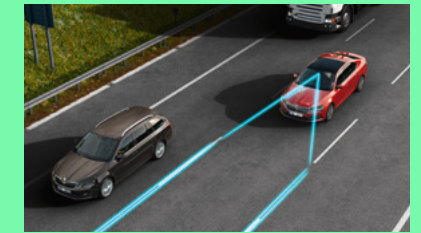

Adaptive Cruise Control

Adapt your speed automatically with Adaptive Cruise Control, which uses the radar in the front grille to maintain a constant distance from the vehicle in front at speeds of 15 mph or more.

Park Assist

This function removes the stress of bay and parallel parking by identifying if the parking spot is big enough before automatically steering into the space.

Lane Assist

Helping you stay in the intended lane of travel, Lane Assist uses a camera to detect road markings, and supports steering if you veer too close to the edge.
