ŠKODA

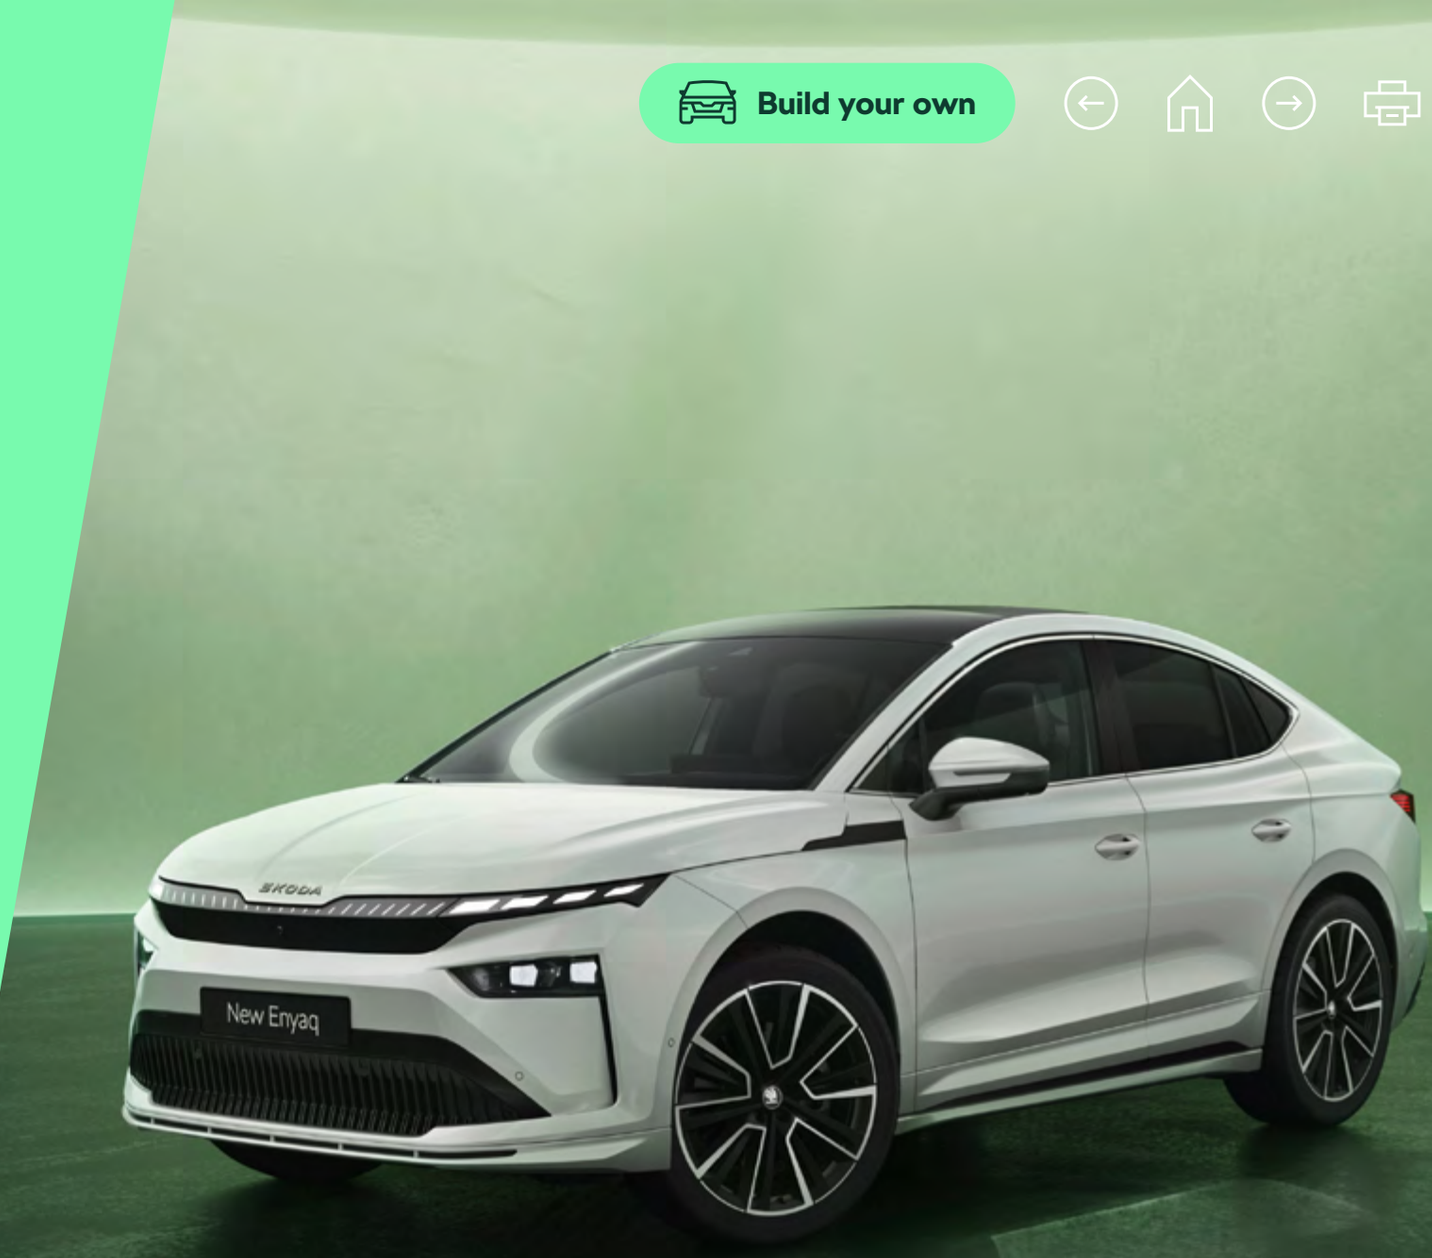
New Enyaq

Effective: 27th October 2025

Embrace the spirit of exploration

Curiosity is a powerful thing. Bring it to life with the new all-electric Škoda Enyaq.

With bold design, graceful driving style and a plethora of premium features, the new Enyaq ticks all the boxes. Whilst a range of interior design selections and eye-catching paint colours ensure your Enyaq is perfectly aligned to your persona.



Models shown are not UK specification.

Pricing valid as of 27th October 2025.

All prices listed are Manufacturer's 'On The Road' Recommended retail Price. Skoda may change prices at any time (this includes where there are government changes in regulation and/or legislation). There may be a delay to any RRP displaying correctly on our materials. Always obtain prices from your chosen Retailer. Images shown do not reflect the stated entry level prices.

In order to preserve the usable capacity of the battery as much as possible, it is recommended to set a charging target of 80% for daily operation and use (which can be switched to 100% before long distance journeys for example).

The availability of the maximum electrical output could be limited. The amount of power available in individual driving situations depends on various factors, such as ambient temperature and the charge status, temperature and condition or physical age of the high-voltage battery.

From 1st April 2021 zero emission electric vehicles (BEVs) are zero-rated standard tax for both the first year and all subsequent years.

Information regarding tyre technical specifications can be found by visiting the Škoda car configurator **here**.

The Electric Car Grant is a UK Government grant to promote the purchase of certain new electric vehicles. The grant is not exclusive to Volkswagen Group United Kingdom Limited. Selected Škoda Elroq and Enyaq models are eligible for this Grant within Band 2, meaning eligible customers purchasing a qualifying vehicle will receive £1,500 off the purchase price. The grant is available when purchasing Enyaq SE L 60, Enyaq Edition 60. Grant excludes Enyaq Model Year 2025, Enyaq Coupé models, Enyaq Edition 85, Enyaq Sportline 85, Enyaq SportLine 85x & Enyaq vRS. The grant is only available where the final purchase price of your vehicle (including options) is less than £42,000. Please speak to your local **Skoda Retailer** to clarify the purchase price and whether your chosen configuration qualifies for the grant. New cars only. The £1,500 will be automatically deducted from the purchase price for your vehicle on the retail invoice. Any discount or offer will be applied before application of the grant. Your authorised Škoda retailer will submit the details of your order in order to claim the grant funding. The grant is subject to full T&Cs and eligibility requirements and may be replaced, withdrawn or amended by the UK Government at any time. For more information, please contact your **Škoda retailer** or visit https://www.gov.uk/plug-in-vehicle-grants. Cannot be claimed retrospectively against previous orders. No cash alternative. UK only (excludes Channel Islands and Isle of Man). Vehicle must be registered in the UK and customer must pay UK VAT on purchase. Vehicle eligibility and grant figure correct as at 09/25.

VED (Vehicle Excise Duty) from 1st April 2025

VED Band	CO_2 (g/km)	Petrol/diesel/alternative fuel cars* (tax class 48, 49 and 59) 12 months	Diesel cars** (tax class 49) 12 months
A	0	£10	£10
B	1-50	£110	£130
C	51-75	£130	£270
D	76-90	£270	£350
E	91-100	£350	£390
F	101-110	£390	£440
G	111-130	£440	£540
H	131-150	£540	£1,360
I	151-170	£1,360	£2,190
J	171-190	£2,190	£3,300
K	191-225	£3,300	£4,680
L	226-255	£4,680	£5,490
M	over 255	£5,490	£5,490

OTR (On The Road)

Recommended 'On The Road' prices include delivery, 12 months Road Fund Licence, DVLA First Registration Fee and apply to the UK only.

VED (Vehicle Excise Duty)

All vehicles will be subject to Vehicle Excise Duty based on the fuel type of the vehicle and its carbon dioxide (CO_2) emissions level, measured in grams per kilometre (g/km). Due to changes in vehicle emissions data, CO_2 figures may differ on these vehicles if taken from current Škoda UK stock.

Vehicle Excise Duty (VED) is correct at time of publication, but this may alter to reflect any change in the applicable VED rate.

* This rate applies to diesel cars tested to real driving emissions step two (RDE2) standards

** This rate applies to diesel vehicles that do not meet the real driving emissions step two (RDE2) standards.

Note: Vehicles with a list price exceeding £40,000 (including factory installed options, delivery charge, number plates and VAT) will pay an additional £410 plus the standard rate VED from year 2 to, and including, year 6. After the 6th year only the standard rate VED will apply.

Benefit in Kind example

Based on Enyaq SE L 60 63kWh 150kW		
P11D value		**£38,945.00**
Company car BiK tax based on CO_2 emission level		**3%**
Taxable BiK (for 2025/26 tax year):	3% of £38,945.00	**£1,168.35**
Annual company car tax (2025/26)		
20% income tax	20% of £1,168.35	**£233.67**
40% income tax	40% of £2,33.67	**£467.34**
Monthly company car tax (2025/26)		
20% income tax	£233.67 divided by 12 months	**£19.47**
40% income tax	£467.34 divided by 12 months	**£38.95**

Company car tax is based on the vehicle's carbon dioxide (CO_2) emissions. The higher the emissions, the higher its tax liability. When a company car is made available for private use a 'Benefit in Kind' value is calculated for tax purposes. The table above will help you calculate your tax liability.

P11D (expenses and benefits)

The P11D value is calculated by taking the On The Road (OTR) price for the vehicle, less the Road Fund Licence (RFL) and First Registration Fee (FRF).

BiK (Benefit in Kind)

The BiK percentage value is based on the CO_2 emissions of the vehicle for the current tax year 2025/26.

Pricing valid as of 27th October 2025.

All prices listed are Manufacturer's 'On The Road' Recommended retail Price. Skoda may change prices at any time (this includes where there are government changes in regulation and/or legislation). There may be a delay to any RRP displaying correctly on our materials. Always obtain prices from your chosen Retailer. Images shown do not reflect the stated entry level prices. The availability of the maximum electrical output could be limited. The amount of power available in individual driving situations depends on various factors, such as ambient temperature and the charge status, temperature and condition or physical age of the high-voltage battery.

Revolutionary design

The new Enyaq sits as the halo of the Škoda brand. A muscular and powerful design that commands respect. Showcasing a distinctive approach that makes the Enyaq a visually pleasing experience inside and out.

To stand out from the crowd, the new Enyaq's body is complemented by lower bumpers in unique dark chrome.

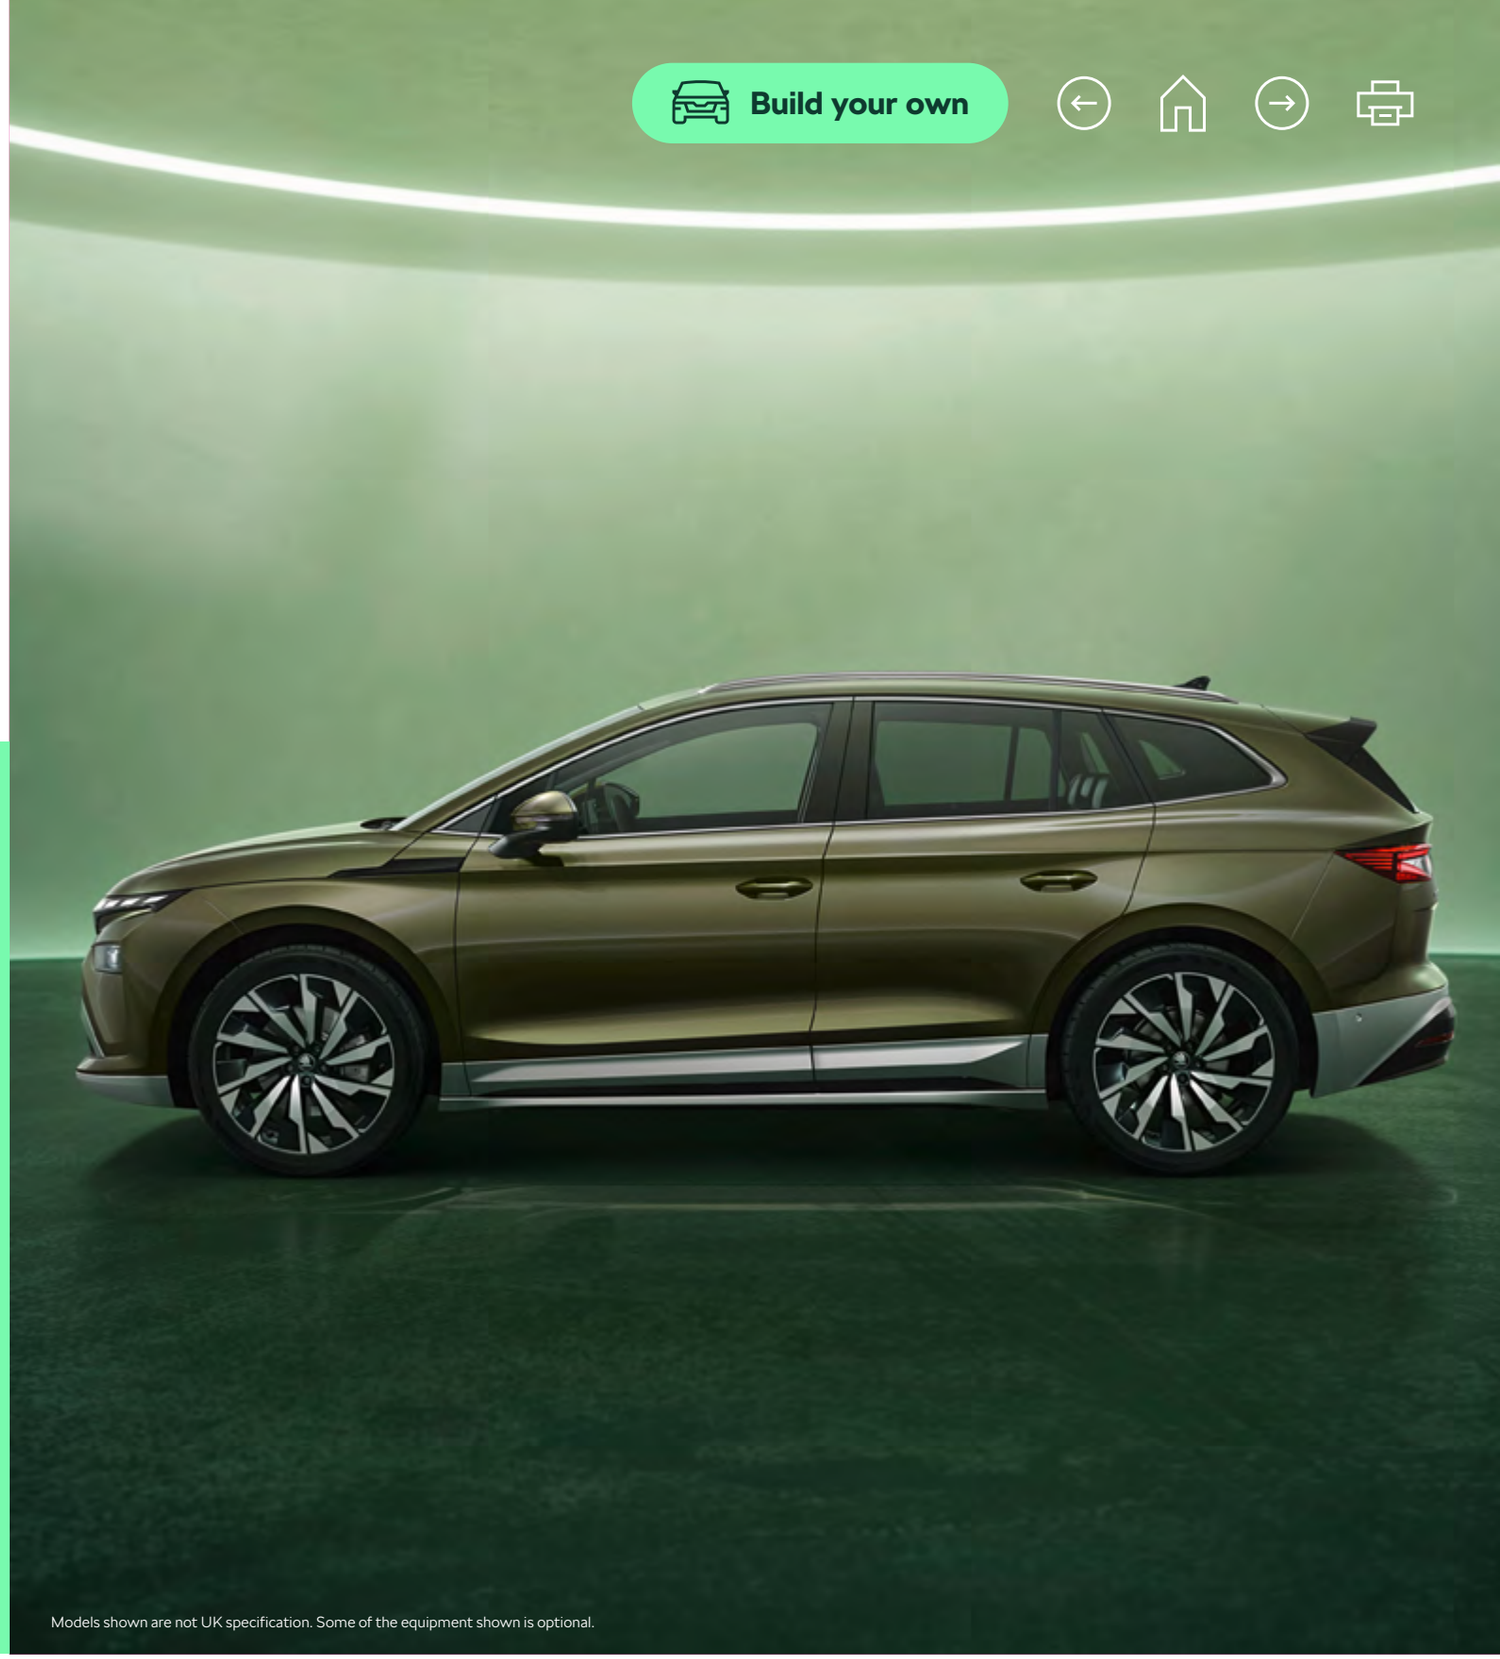
As well as the traditional SUV body style, the new Enyaq is also available as a sleek Coupé, adding dynamic sports bumpers and a full panoramic glass roof.

Split headlights

While the daytime running lights extend out from the Tech-Deck Face, the Matrix LED headlights sit lower, incorporating seamlessly into the air curtains to create a harmoniously designed front end. The innovative lights are as functional as they are stylish. The matrix function blanks out other road users and adapting their light output and positioning to automatically suit each driving situation: City, Country, Highway, All-weather and Tourist (when driving in left-hand drive countries).

Animated indicators

The new Enyaq is as eye-catching at the rear as it is at the front, with the crystalline design turning the rear lights into shining jewels. The animated indicators scroll effortlessly, as well as providing a welcome and goodbye animation when approaching or leaving your car.



Models shown are not UK specification. Some of the equipment shown is optional.

Models shown are not UK specification. Some of the equipment shown is optional.

Purposeful creation

Tech-Deck Face

The beautiful design of the new Enyaq deserves all the attention. As such, the Tech-Deck Face incorporates and hides many of the driver assistance sensors, ensuring they do not distract from the front of the car.

The illuminated strip adds a subtle element of eye-catching style that extends seamlessly in from the LED daytime running lights.

The most aerodynamic vehicle in Škoda's modern portfolio

To maximise the distance you can travel, the new Enyaq boasts the most efficient and drag resistant design of any modern Škoda, allowing it to effortlessly glide through the air. The Enyaq Coupé achieves a drag coefficient of just 0.229, thanks to its sleek roofline, sculpted air intakes and aero-optimised wheels.

Commanding structure

Taking a strong stance on the road, the new Enyaq demands attention from every angle. The vertical slats of the lower air intake create a strong, bold look, helping the Enyaq look planted on the road.

Safety at the forefront

A range of active and passive safety and driver assistance systems help to keep you and your passengers safe on every journey.

Models shown are not UK specification. Some of the equipment shown is optional.

Blind spot detection

An extra set of eyes on the road that monitors the blind spots allowing you to manoeuvre safely. An acoustic warning will also sound if the vehicle's door is opened that could collide with a vehicle, cyclist, pedestrian or electric scooter.

Turn assist

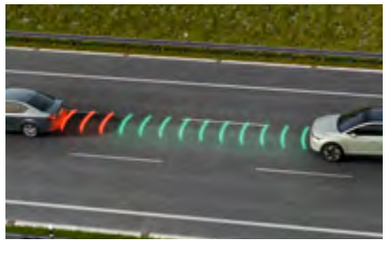
When the vehicle is turning, sensors in the front of the vehicle detect oncoming vehicles and brakes if needed to prevent a head-on collision.

Park assist

This function removes the stress of bay and parallel parking by identifying if the parking spot is big enough before automatically steering into the space.

Lane assist plus

Helping you stay in the intended lane of travel, lane assist plus uses a camera to detect road markings, and supports steering if you veer too close to the edge.



Predictive adaptive cruise control

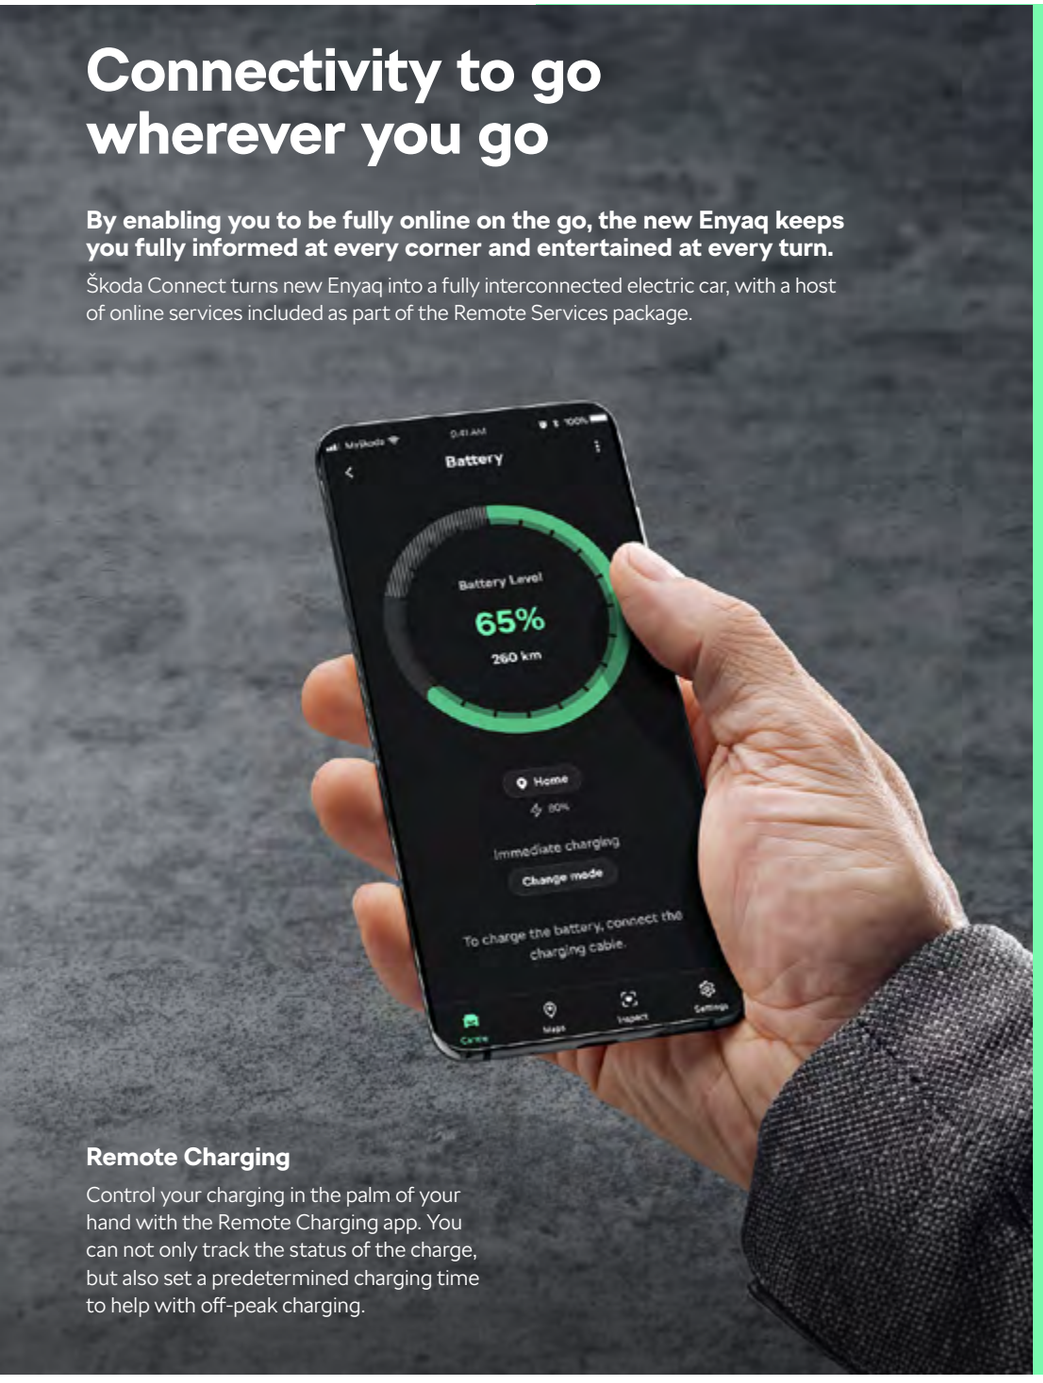
Control your speed automatically with predictive adaptive cruise control, which uses the radar in the front grille to maintain a constant distance from the vehicle in front at speeds of 15mph or more. It also uses traffic sign recognition and GPS technology to adjust the cruise speed when necessary - typically before a turn or roundabout, or when entering an area with a lower speed limit.

Innovation at every turn

Connectivity to go wherever you go

By enabling you to be fully online on the go, the new Enyaq keeps you fully informed at every corner and entertained at every turn.

Škoda Connect turns new Enyaq into a fully interconnected electric car, with a host of online services included as part of the Remote Services package.



Remote Charging

Control your charging in the palm of your hand with the Remote Charging app. You can not only track the status of the charge, but also set a predetermined charging time to help with off-peak charging.

Remote air conditioning

Your new Enyaq, your way. That's the beauty of remote air con, which lets you schedule the car to be air conditioned at a specific time, so you'll always head off in absolute comfort.

Smart Schedules

Take full control of your charging schedule with this brand-new service. In addition to enabling you to take advantage of cheaper off-peak electricity tariffs, you can also create different charging settings based on the car's location, for example home or work. Just plug in the car and leave the rest to Smart Schedule.

This clever service also allows you to set the temperature before you jump in the car, ideal for chilly winter nights or hot summer days.

eCALL

In the event of an emergency on the road, the new Enyaq will automatically send an SOS signal for help to give you extra peace of mind. This is triggered as soon as the airbag or belt tensioners report a major accident.

Alternatively, you can press the manual SOS button to call the emergency services directly to report an accident or raise the alarm about another traffic incident you've witnessed.

Digital Cockpit

The new Enyaq showcases electric innovation at every turn. Dashboard included. Forget old-fashioned dials, here you'll find a full-colour Digital Cockpit featuring a range of display layouts that can be toggled via the steering wheel. These include Basic, Navigation, Assist Systems, and Goodbye View.

Head-up Display

Cleverly designed to avoid distraction, the augmented reality head-up display shows key driving data in a way that's easy to absorb at a glance.

Virtual driving information, such as speed, navigation, and adaptive cruise control, is shown directly on the road in front of the vehicle, allowing you to stay informed while staying in full control.

Models shown are not UK specification.

Škoda Connect
Find out more

Little touches with large impact

The Enyaq boasts a collection of thoughtful features and smart storage spaces that make everyday that little bit easier.

Umbrella storage compartment

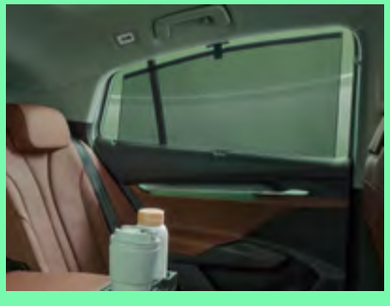
Never let a soggy day dampen your spirits again with this handy driver's door compartment. Designed to fit the original Škoda umbrella, it also cleverly drains water away from the car. Plus, the umbrella incorporates sustainable materials into its design.

Rear storage

Plenty of spaces to put all those little nicknacks, water bottles, magazines and your phone.

Sunblinds

Keep the sun out of yours and your children's eyes with manual sunblinds for the rear windows.



Cargo elements

To avoid the undesired movement of luggage whilst driving down twisting B-roads, these dividers stick to the boot floor and help to prevent items from rolling around.

Models shown are not UK specification. Some of the equipment shown is optional. Please note: Some combinations of options can cause the vehicle to be unbuildable. Please speak to your local **Škoda Retailer** or visit **Škoda.co.uk** to configure your required specification.

All the room you need

The Enyaq boasts a spacious boot, with handy features making it even more usable. With up to 585 litres with the rear seats up or 1,710 litres with them down* there's more than enough room for weekend activities and those flat pack furniture trips.

Models shown are not UK specification. Some of the equipment shown is optional. Please note: Some combinations of options can cause the vehicle to be unbuildable. Please speak to your chosen **Škoda Retailer** or visit **Škoda.co.uk** to configure your required specification.
*Enyaq Coupé has a boot capacity of 570 litres with rear seats up, or 1610 with them folded down.

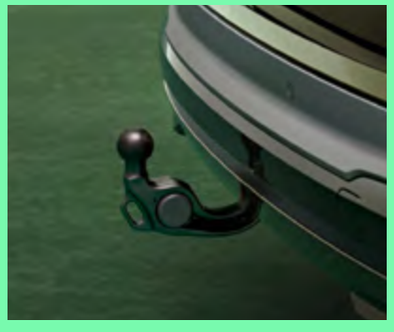
Maximum space, added practicality

Net programme

This set of nets reliably prevents your items from moving around, so they're just as you left them, even after a brisk trip down a winding road.

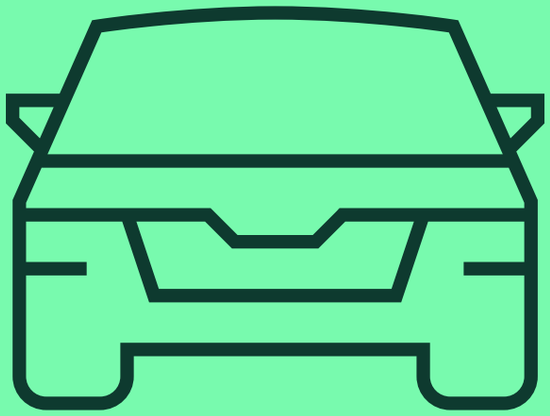
Remote folding seats

The rear seats can be folded down using a remote release button in the boot, so you don't need to go round to the back seats.



Tow bar

The Enyaq can be equipped with a foldable tow bar with electric release via a switch is in the luggage compartment.



Discover your Škoda

Vehicle selector

Your Enyaq can be customised to best suit your needs. The five steps below show the simple way to create your perfect Enyaq.

1 Versions

First choose the trim that ticks your boxes.

SE L

- 19" Proteus silver alloy wheels
- Heated front seats & steering wheel
- Predictive adaptive cruise control
- Rear view camera
- Wireless charging
- Keyless entry
- Tri-zone climate control
- Electric boot with Virtual pedal

Edition

- 19" Regulus anthracite alloy wheels
- Full LED Matrix headlights
- Rear LED lights with animated indicators
- Electric drivers seat with massage
- Rear side airbags

SportLine

- 20" Vega black alloy wheels
- Illuminated Tech-Deck
- Head-up display
- Area view
- CANTON sound system
- Sports suspension
- Progressive dynamic steering

vRS

- 20" Draconis black alloy wheels
- vRS bumpers
- Electric passenger seat with massage
- Remote park & trained parking
- Dynamic chassis control

2 Battery

Then select the battery that best suits your lifestyle.

* WLTP combined range. Figures shown are for comparability purposes; only compare electric range figures with other vehicles tested to the same technical procedures. These figures may not reflect real life driving results, which will depend upon a number of factors including the accessories fitted (post-registration), variations in weather, driving styles, vehicle load and the starting charge of the battery. Figures for battery electric vehicles were obtained after the battery had been fully charged. Battery electric vehicles require mains electricity for charging. Data correct at 27th October 2025. Choice of wheels and other options may affect consumption and range data. Charging times will depend on various factors, including temperature, state of the battery, state of and capabilities of the charging unit and power supply. Actual charging time will vary depending on the level of charge in the battery, as well as environmental conditions. Charging times will also be affected by the charging curve for example once charging passes 80%, charging will slow to protect the battery's longevity. However, in order to preserve the usable capacity of the battery as much as possible, it is recommended to set a charging target of 80% for daily operation and use (which can be switched to 100% before long distance journeys for example).

Enyaq SE L

Anything but basic, the Enyaq SE L comes with a strong level of comfort, practicality and safety features. Including 19" Proteus alloy wheels, a 13" touchscreen, heated front seats, rear view camera, adaptive cruise control, wireless charging and electric boot.

13" touchscreen display

Enyaq
SportLine

Dynamic chassis control (part of Maxx Package)

21" Supernova black alloy wheels

Heated rear seats (part of Winter Package)

Panoramic sunroof

Recommended Options

Panoramic sunroof

Brighten the cabin with a panoramic sunroof that opens to bring in fresh air.

Maxx Package

The ultimate package. Elevate your driving experience with dynamic chassis control, whilst your front passenger enjoys an electric seat with massage. Then, when you get to your destination, your Enyaq can park itself with your assistance.

21" Supernova black alloy wheels

Add even bolder styling.

Winter Package

Add heated rear seats and a heated windscreen to stay toasty in the cold British winter.

Models shown are not UK specification. Some of the equipment shown is optional. Information regarding tyre technical specifications can be found by visiting the Škoda car configurator **here**.
Some combinations of options can cause the vehicle to be unbuildable. Please speak to your local **Škoda Retailer** or visit **Škoda.co.uk** to configure your required specification.

Enyaq vRS

The Enyaq vRS delivers thrilling performance with its all-wheel drive, dual electric motors, and 340PS of power—offering rapid acceleration and pure driving exhilaration at every turn.

Striking design details include 20" Draconis black alloy wheels, gloss black accents, and vRS badging. Optional 21" Vision anthracite wheels and exclusive Hyper Green paint are also available for added impact.

Inside, the vRS offers a sporty, premium feel with advanced technology and comfort features throughout.

Models shown are not UK specification. Some of the equipment shown is optional.

Loft
Design Selection

The second you take your seat you'll feel at home. It's not a coincidence, as the timeless combination of grey and black is inspired by a stylish living room, as are all the interior Design Selections. Practicality and durability reign supreme, with easy to clean materials used throughout.

Ambient lighting

Customise the interior look of your Enyaq even further with adjustable ambient lighting. With the ability to match the orange seatbelts of the Lodge design selection, or the mint green piping of the Lounge design selection, or any colour you prefer.

Storage

There's space for everything in the Enyaq. Complementing the large boot is a range of clever storage spaces, including under the central armrest, next to the drive selector, and in the felt-lined door bins.

Models shown are not UK specification. Some of the equipment shown is optional.

Lodge
Design Selection

Created for those seeking a bolder look, the Lodge design selection incorporates two-tone materials throughout the cabin, ensuring your Enyaq truly stands out from the crowd.

Unique materials

The Lodge interior features a special material called Technofil, which is composed of 75% ECONYL© fibres and 25% polyester. ECONYL© yarns are made from recycled nylon waste, such as fishing nets, fabric scraps and carpets destined for landfill. All together this gives seat upholstery a sustainability-focused and unique feeling interior.

Orange accents

Add a splash of colour with orange seatbelts and stitching, capturing attention and making your family want to jump in.

Models shown are not UK specification. Some of the equipment shown is optional.

Lounge
Design Selection

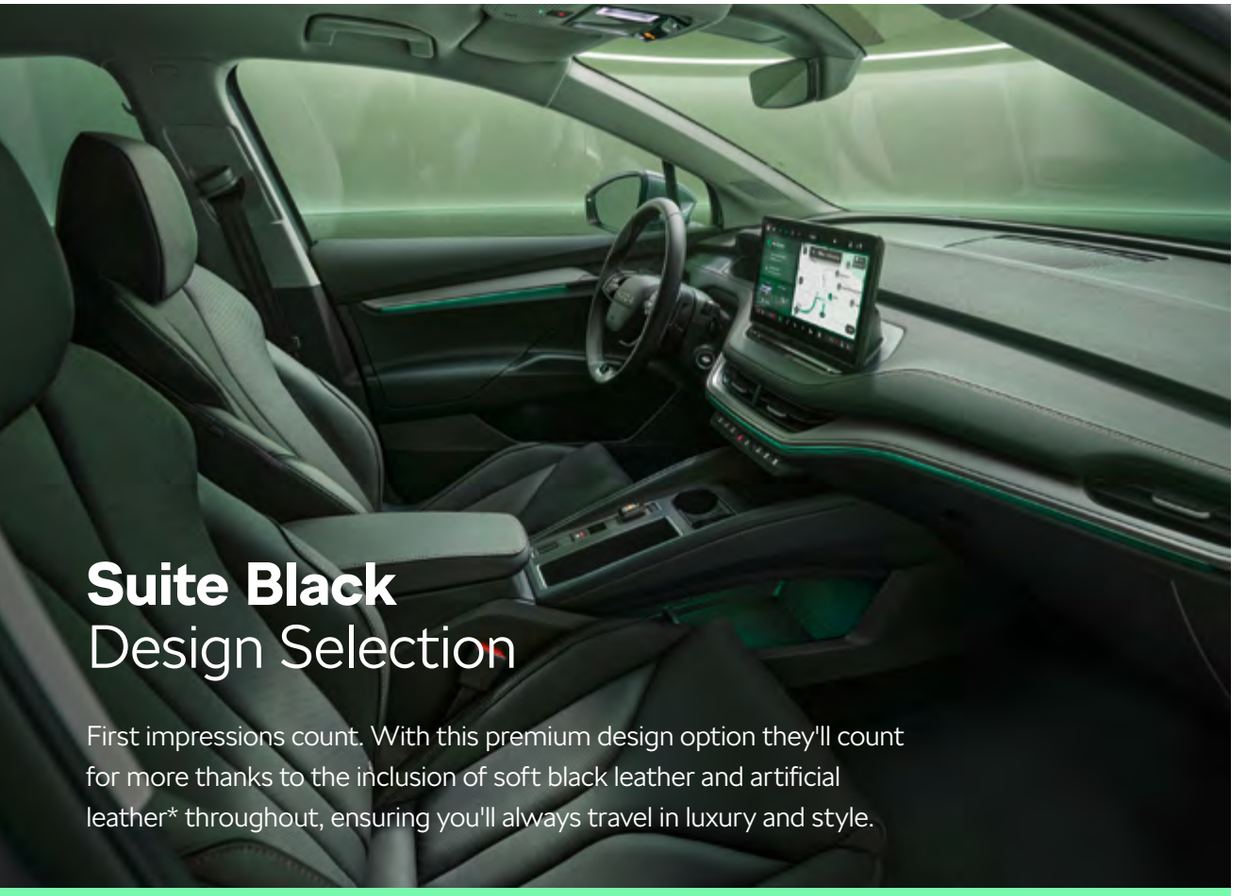
You'd struggle to find a more fitting name for this design selection than Lounge. After all, everything about this strikingly detailed interior has been crafted to make you and your passengers simply want to sit back and relax.

Soft materials

Supported by grey artificial leather, the seats and dashboard are upholstered in grey microsuede. Providing the driver and passengers with a soft, comfortable place to cover many miles.

Mint green piping

Complementing the grey interior is a series of mint green piping that flows over the seats, providing a subtle burst of colour.

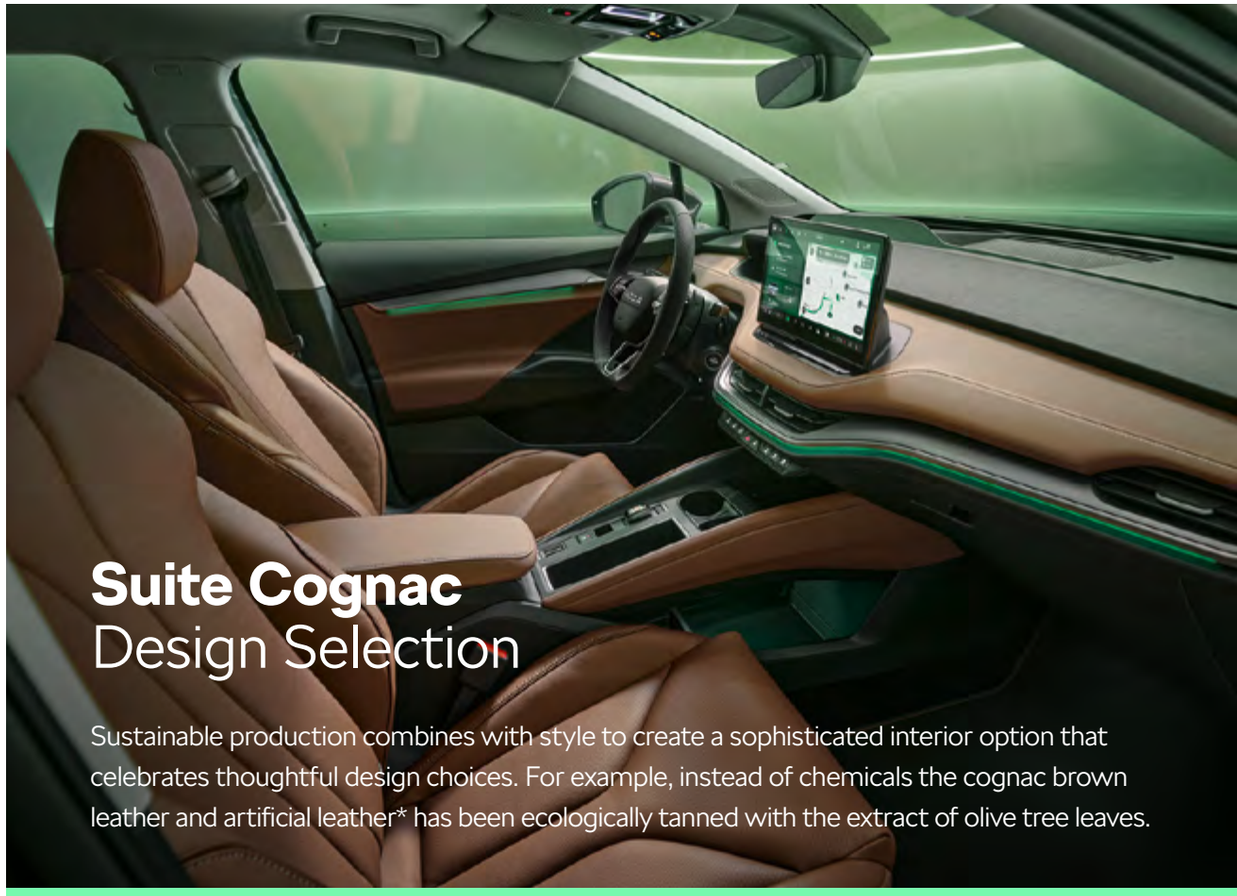


Suite Black
Design Selection

First impressions count. With this premium design option they'll count for more thanks to the inclusion of soft black leather and artificial leather* throughout, ensuring you'll always travel in luxury and style.

From the elegant décor to the artificial leather door inserts and black floor mats with cognac piping, this interior denotes quality and elegance. Coupled with ventilated and heated front seats, the interior ensures comfort in any weather.

Models shown are not UK specification. Some of the equipment shown is optional.



Suite Cognac
Design Selection

Sustainable production combines with style to create a sophisticated interior option that celebrates thoughtful design choices. For example, instead of chemicals the cognac brown leather and artificial leather* has been ecologically tanned with the extract of olive tree leaves.

Mirroring the Suite Black design selection, the cognac alternative offers a touch of classicism and refinement that elevates the cabin.

Models shown are not UK specification.

* The seat upholstery consists of a combination of genuine and synthetic leather. The seat cushion, centre panel and backrest of the front row seats and the seats on the left and right of the second row are made from genuine leather.

Models shown are not UK specification. Some of the equipment shown is optional.

SportLine
Design Selection

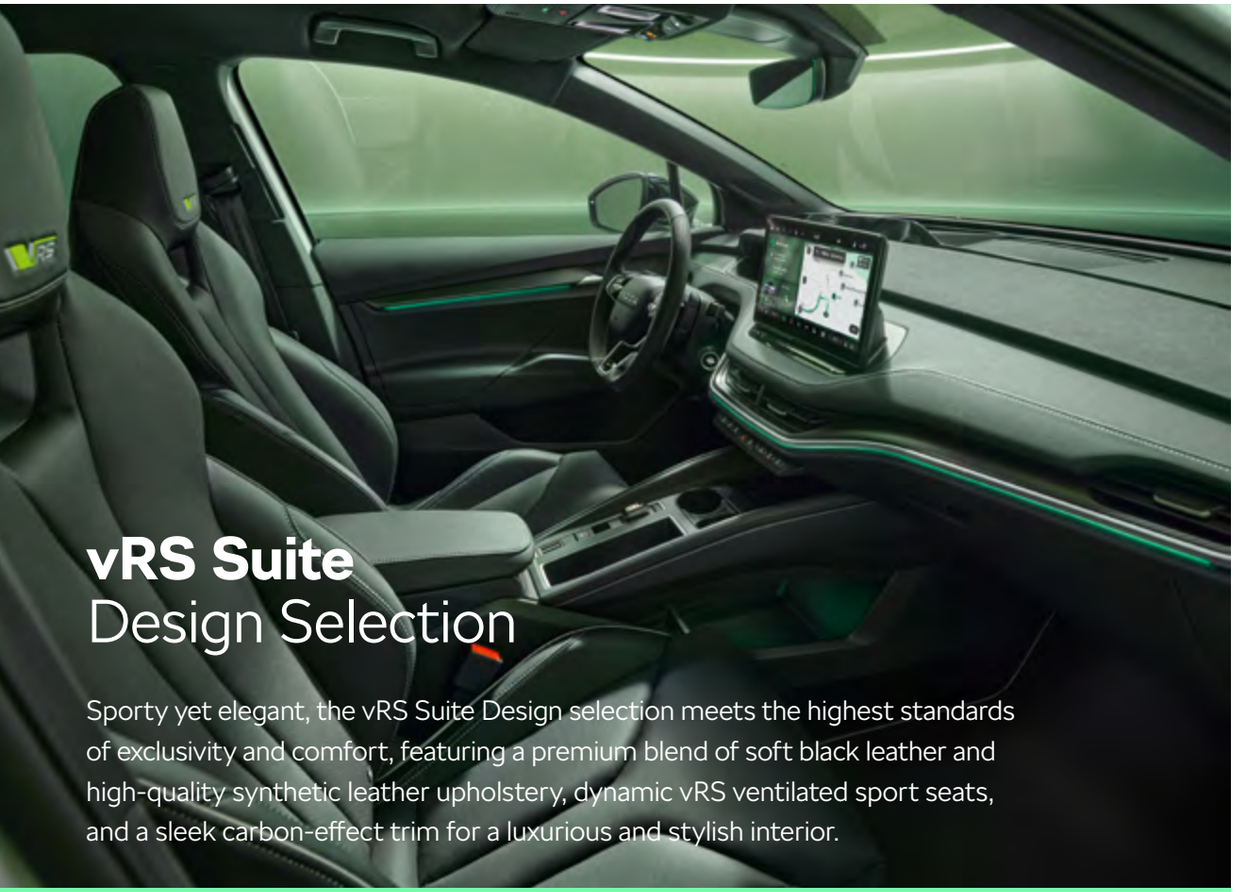
The Enyaq SportLine is as dynamic inside as it is on the outside. Settling into the microsuede and artificial leather front sports seats, you instantly feel ready for action. Surrounded by carbon-effect decor, SportLine's intentions become very clear: high-powered aesthetics coupled with spirited all-wheel drive performance.

Sports focus

A range of unique interior features support a dynamic driving experience. Black microsuede and artificial leather* sports seats keep you cocooned through the corners, whilst providing a comfortable base for long journeys. Aluminium pedals and carbon-effect décor enhance the powerful look, and make the Enyaq SportLine feel even more special.

3-spoke sports steering wheel

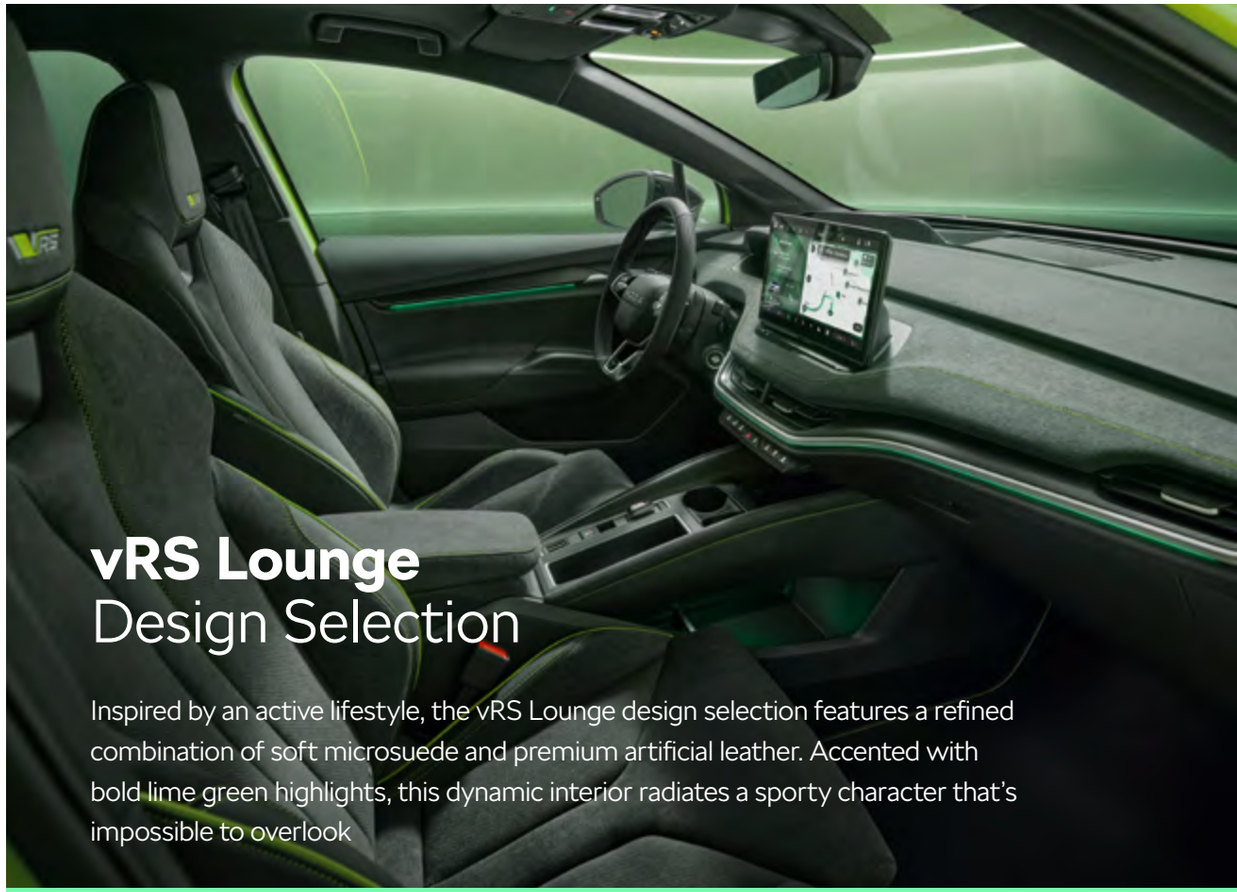
The three-spoke leather heated sports multifunction leather sports steering wheel comes as standard and allows numerous vehicle functions to be controlled from its user-friendly buttons and knurled wheels. The leather-covered steering wheel rim features black stitching, while the lower spoke has a badge bearing the SportLine lettering.



vRS Suite
Design Selection

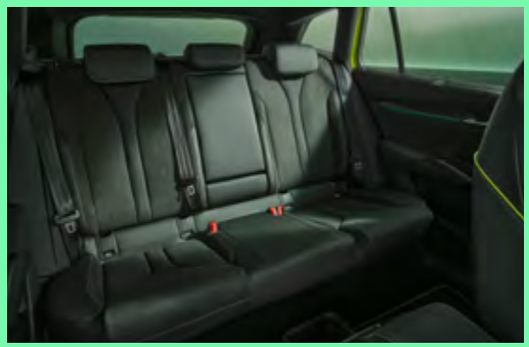
Sporty yet elegant, the vRS Suite Design selection meets the highest standards of exclusivity and comfort, featuring a premium blend of soft black leather and high-quality synthetic leather upholstery, dynamic vRS ventilated sport seats, and a sleek carbon-effect trim for a luxurious and stylish interior.

Models shown are not UK specification.



vRS Lounge
Design Selection

Inspired by an active lifestyle, the vRS Lounge design selection features a refined combination of soft microsuede and premium artificial leather. Accented with bold lime green highlights, this dynamic interior radiates a sporty character that's impossible to overlook



Models shown are not UK specification.

* The seat upholstery consists of a combination of genuine and synthetic leather. The seat cushion, centre panel and backrest of the front row seats and the seats on the left and right of the second row are made from genuine leather.

Advanced Package
Take it to another level

Adding a range of premium technology and practicality features, the Advanced Package offers you a unique, enhanced every day experience.

Illuminated Tech-Deck

Add attention-capturing styling with an illuminated Tech-Deck.

Storage features

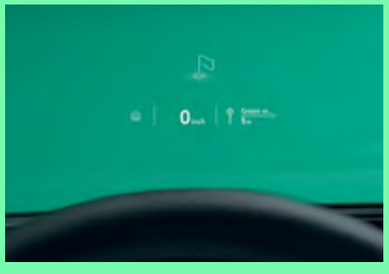
Add the ultimate practicality features with:
- Boot net programme
- Cargo elements
- Storage compartment for rear seats
- Cable bag
- Rear seat backrest release

Variable boot floor

Raise the floor of the boot to ease with loading items, or lower it to maximise space.

Area view

Gain an eye in the sky when parking. Area view gives you a 360 degree view around your car, helping to prevent collisions when parking.



Head-up display

Have key driving information such as your speed, map directions and road speed limit shown to you, all whilst keeping your eyes on the road ahead.

CANTON sound system

Set the perfect tone for every journey with this set of 12 speakers and digital equaliser. Created in collaboration with German audio experts CANTON, you can be confident every album, radio show or podcast will be pitch perfect as the system has been fine-tuned to suit the Enyaq's interior.

Models shown are not UK specification. Some of the equipment shown is optional. Please note: Some combinations of options can cause the vehicle to be unbuildable. Please speak to your local **Škoda Retailer** or visit **Škoda.co.uk** to configure your required specification.

Maxx Package
Own the ultimate Enyaq

Includes features shown, and all those in Advanced Package

Offering the greatest selection of features, the Maxx Package ensures you and all your passengers will travel in heightened luxury.

Park assist with trained parking

Have your Enyaq park itself. You simply control the acceleration and braking, whilst the car automatically manoeuvres into the parallel or bay parking space.

Trained Parking allows your Enyaq to automatically park itself in a familiar setting such as your home or workplace from as far as 50m away.

Remote park assist

Somebody parked too close to you? You can navigate your Enyaq out of a parking space remotely via the MyŠkoda app. Not only can you move the car forwards and backwards, but also into familiar parking spaces with remote trained parking.

Dynamic chassis control

Customise your Enyaq's handling to your personal preferences in any situation, be it additional comfort or dynamism.

Electrically adjustable passenger seat with massage function

Extend the comfort of an electric seat with massage to the front passenger as well as the driver.

Models shown are not UK specification. Some of the equipment shown is optional. Please note: Some combinations of options can cause the vehicle to be unbuildable. Please speak to your local **Škoda Retailer** or visit **Škoda.co.uk** to configure your required specification.

Figures shown are for comparability purposes; only compare fuel consumption, CO_2 and electric range figures with other vehicles tested to the same technical procedures. These figures may not reflect real life driving results, which will depend upon a number of factors including the accessories fitted (post-registration), variations in weather, driving styles, vehicle load and the starting charge of the battery. Figures for battery electric vehicles were obtained after the battery had been fully charged. Battery electric vehicles require mains electricity for charging. Charging times will depend on various factors, including temperature, state of the battery, state of and capabilities of the charging unit and power supply. Actual charging time will vary depending on the level of charge in the battery, as well as environmental conditions. Charging times will also be affected by the charging curve for example once charging passes 80%, charging will slow to protect the battery's longevity. The availability of the maximum electrical output could be limited. The amount of power available in individual driving situations depends on various factors, such as ambient temperature and the charge status, temperature and condition or physical age of the high-voltage battery. Data correct from 27th October 2025. Choice of wheels and other options may affect consumption and range data. For more information, please see **Škoda.co.uk/owners/wltp-info** or consult your local **Škoda Retailer**.

Information regarding tyre technical specifications can be found by visiting the Škoda car configurator **here**.

Škoda Financial Services

Škoda Financial Services offer a wide range of finance, insurance and servicing packages designed to fit your needs. We specialise in providing simple and convenient funding options for Škoda drivers.

Be free to make the switch to electric with Škoda Lease&Care, a leasing agreement with a level of servicing included in your monthly payments, that allows you to drive a Škoda Enyaq without needing to own it.

The simplicity of this finance plan means all servicing and car costs are covered in one easy, single monthly payment. Just follow these three simple steps:

1. Select your chosen Škoda Enyaq.
2. Choose how long you want it for and how many miles you drive.
3. Choose a care package built around you and your driving style.

With no lump sum to pay at the end of your agreement, you're free to move straight into your next Škoda or stay in your Enyaq for longer, as all options are built around you.

Škoda Financial Services can also offer a Solutions Personal Contract Plan, hire purchase or Contract Hire package for your Škoda Enyaq. Please speak to your chosen **Škoda Retailer** to discuss your requirements and for your personalised quotation today.

An offer of finance depends on certain conditions. Subject to status. Available to 18s and over in the UK only. Terms and conditions apply. Škoda Financial Services.

Read on for more details.

Škoda Car Insurance

Škoda Car Insurance offers quality service and support when you need it most, with a policy tailored specifically for your Škoda. Just as you'd expect from Škoda, our annual car insurance provides comprehensive cover, with lots of benefits included at no extra cost.

Insure your car with Škoda and relax knowing we only use Škoda trained technicians, who know your car inside out, and Škoda genuine parts*, giving you the peace of mind that your Škoda will be repaired to the same high standards as before and to original manufacturer specifications.

You also have the added reassurance of electric charging cables and home charger cover, as well as cover for accidents caused by any electric charging cables, when attached to your car. Plus, we'll cover damage to your car's electric battery, whether it is owned or leased, if it becomes damaged as a result of an insured incident.

*Excludes windscreen claims.

To get a quote or find out more, visit **insurewithskoda.co.uk/car-insurance** Alternatively, call us on **0345 246 9091**. Lines are open 8am-8pm Monday to Friday and 9am-5pm Saturday. Calls may be recorded.

Škoda Car Insurance is provided and underwritten by U K Insurance Limited. Calls may be recorded.

Škoda Financial Services is a trading name of Volkswagen Financial Services (UK) Limited ("VWFS UK"), registered in England and Wales No.2835230 (registered office: Brunswick Court, Yeomans Drive, Blakelands, Milton Keynes MK14 5LR). Until 31st October 2022 Volkswagen Insurance Service (Great Britain) Ltd operates as an appointed representative of VWFS UK, after this date all references to Volkswagen Insurance Service (Great Britain) Ltd should instead be read as VWFS UK. VWFS UK is authorised and regulated by the Financial Conduct Authority. VWFS UK and U K Insurance Limited are not part of the same corporate group.

Service and maintenance

Our range of servicing and maintenance plans will help to keep your Škoda in prime condition. Plus, the price is fixed so you won't be caught out by any unbudgeted costs.

All our service plans use genuine Škoda approved parts and trained technicians so you know your car is in the hands of experts. Parts and labour also come with two years warranty too.

Service Plans for Electric Vehicles under one year old

This includes your vehicles first service, covering you for two years for a fixed payment, protecting you from inflation. You can choose to pay upfront or monthly. The Service Plan includes a maximum of one inspection service, one pollen filter change and one brake fluid change. Electric vehicle services are set to a fixed regime.

Our service plans are designed for customers that travel 10,000 miles or less per year. If you travel over 10,000 miles per year, or would prefer to add maintenance or tyres, then speak to your chosen **Škoda Retailer** to create a more tailored service plan.

All electric vehicles must be set to a fixed service regime.. Exclusions and terms and conditions apply. Offer is available to retail customers only from participating Škoda Retailers. Offers may be varied or withdrawn at any time. Freepost Škoda Financial Services.

Škoda Financial Services is a trading name of Volkswagen Financial Services (UK) Limited, Brunswick Court, Yeomans Drive, Blakelands, Milton Keynes MK14 5LR. Registered in England number 2835230.

Service intervals

Your Enyaq is supplied with a fixed service regime to ensure that your car stays in the best possible shape. A service light will show when the car requires inspection at 24 months.

To keep your Enyaq operating as it should we recommend the following work is carried our every 24 months:

> Inspection – we'll make sure all the components and systems work as they should.
> Pollen Filter – we'll renew the Pollen Filter to keep your vehicle cabin clear of dust and odours.
> Brake Fluid – we'll renew your brake fluid to maintain braking efficiency and function.

Roadside assistance

A one year, European-wide, unlimited mileage Škoda Assistance policy comes free of charge with every new Škoda. There's a team of specially trained technicians who carry the right diagnostic equipment and parts to get you back on the road as quickly as possible in the unfortunate event of a breakdown.

Škoda Roadside Assistance 24-hour helpline: 0330 100 3243.

Provided in partnership with the AA. Exclusions and terms and conditions apply. For details please speak to your chosen **Škoda Retailer**.

Customer services

Talk to us on **03330 037 504**. No matter what the query, our dedicated call centre is always ready to listen. No matter how big or small the request, speak to one of our customer care advisors to see if they can help. The call centre is open Monday to Friday from 8.30am-5.30pm. You can also talk to one our advisors via live chat, open Monday to Sunday from 8am-10pm.

A network that's here to help

You can be sure that as a Škoda customer, your chosen **Škoda Retailer** will look after you from the moment you walk through the door and throughout the life of your Škoda. Your Enyaq will be serviced and maintained by specially trained Škoda technicians, and when you need a spare part you'll be happy to know that most are held in stock, or ordered within 24 hours. So if top class customer satisfaction is what you're after, the Škoda network will be there for you.

Motability

People who are in receipt of one of the following allowances, and have at least 12 months remaining on their reward, may be eligible for a vehicle via the Motability scheme.

Enhanced Rate of the Mobility Component of Personal Independence Payment (PIP), Higher Rate Mobility Component of Disability Living Allowance (HRMC DLA), War Pensioners' Mobility Supplement (WPMS), Armed Forces Independence Payment (AFIP), Higher Rate Mobility Component of the Child Disability Payment (CDP), or Enhanced Rate Mobility Component of the Adult Disability Payment (ADP).

For full details of the scheme, current model availability and pricing, please contact the Motability specialist at your chosen **Škoda Retailer**.

Warranty

Peace of mind with a Škoda warranty

In the first two years of owning your car, you'll get the peace of mind of a two year unlimited mileage warranty. In addition, you'll also get a further warranty on new vehicles supplied through the appointed retail network until the vehicle has completed 60,000 miles or the end of the third year, whichever is sooner. Your Enyaq also benefits from a three-year paint warranty and 12-year body protection warranty. Exclusions and terms and conditions apply.

Owning a Škoda

Three-year vehicle warranty from new
First two years unlimited mileage.
Third year with 60,000 mile limitation, whichever is sooner.
Four to five years Optional Extended Warranty.

Three-year paint warranty
Up to 12 years body protection.

Exclusions and limitations

Wear and tear components will only be considered under the terms of the warranty for the first of six months or 6,500 miles, whichever is soonest. These include, but are not limited to brake linings and disc pads, clutch release bearings, clutch pressure plates and centre plates, tyres, wiper blades, seat and backrest covers, floor coverings, spark plugs, batteries for key fobs and alarms, light bulbs and shock absorbers. Mechanical adjustments including but not limited to adjustments to doors, flaps, boot lids, bonnets and sunroof, brake adjustment, clutch adjustment, v belt adjustment, headlight adjustment, steering geometry adjustments and wheel balancing are excluded.

Damage (including but not limited to the following) is excluded:

> Damage caused by your failure to take all reasonable steps to prevent mechanical damage from occurring.
> Damage or defects caused by not having the vehicle serviced in accordance with the manufacturer's guidelines.
> Damage or defects caused by improper use of the vehicle, neglect or use of the vehicle for motor sports activities.
> Damage caused by an accident.
> Damage to paintwork or chrome caused by external influences, such as climatic, chemical or industrial pollution.
> Damage resulting from the use of non-original replacement parts.

Routine maintenance and servicing is not covered by the warranty. Incidental or consequential costs such as hotel charges, car hire, and loss of personal effects or income are not recoverable under the terms of the warranty.

8 Year high-voltage battery Warranty

Free repair of the high-voltage battery, if the damage occurs within 8 years or before reaching a mileage of 100,000 miles (whichever occurs first) from the beginning of the Škoda warranty. Reduction in the capacity of the high-voltage battery over time is a natural feature of technology and does not constitute a defect within the meaning of the Škoda warranty (this is with regards to a natural lock), provided that this value measured by the Škoda service partner does not fall below 70% of the total usable capacity before the expiry of 8 years or before the achievement of 100,000 miles (whichever comes first) from the beginning of the Škoda warranty.

In the event of a claim under the Škoda warranty regarding damage to the high-voltage battery, the capacity of the high-voltage battery after fault rectification is at least 70% of the total usable capacity, and this is in consideration of all relevant factors including the age, condition and the mileage of the vehicle. There shall be no further claims arising from the Škoda Warranty. In particular, no claim for replacement, no right of withdrawal, no claim to purchase price reduction, or provision of a replacement car for the duration of repair and compensation.

Adding that little extra to your car

If the standard specification and factory fitted options aren't enough for you, then why not take a look at our range of Retailer fitted accessories? A separate accessories brochure can be found at your chosen **Škoda Retailer**, or can be viewed online at: **skoda.co.uk/owners/accessories-and-merchandise**

Figures shown are for comparability purposes; only compare fuel consumption, CO_2 and electric range figures with other vehicles tested to the same technical procedures. These figures may not reflect real life driving results, which will depend upon a number of factors including the accessories fitted (post-registration), variations in weather, driving styles, vehicle load and the starting charge of the battery. In order to preserve the usable capacity of the battery as much as possible, it is recommended to set a charging target of 80% for daily operation and use (which can be switched to 100% before long distance journeys for example). Figures for battery electric vehicles were obtained after the battery had been fully charged. Battery electric vehicles require mains electricity for charging. Data correct at 27th October 2025. Choice of wheels and other options may affect consumption and range data. For more information, please see **skoda.co.uk/owners/wltp-info** or consult your chosen **Škoda Retailer**.

Škoda UK may change RRPs at any time (this includes where there are government changes in regulation and/or legislation). There may be a delay to any RRP displaying correctly on our materials. Always obtain prices from your chosen **Škoda Retailer**.
