EpiQ

ŠKODA

Effective: 19th October 2026

Ooooh

that's Epiq

Introducing a new era of Škoda.
A bold, "Modern Solid" approach to design.
An electric compact SUV that is small, but epic.

Introducing the all-electric Škoda Epiq. A perfect harmony of smart technology and iconic Simply Clever features means the Epiq effortlessly enhances daily life. A spacious interior hidden inside a compact, confident silhouette provides a strong range of emission-free miles, ensuring your transition to electric driving is both accessible and epic in every single detail.

Models shown are not UK specification.

Pricing valid as of 30th July 2026.

All prices listed are Manufacturer's 'On the road' Recommended Retail Price. Škoda may change prices at any time (this includes where there are government changes in regulation and/or legislation). There may be a delay to any RRP displaying correctly on our materials. Always obtain prices from your chosen Retailer. Images shown do not reflect the stated entry level prices.

In order to preserve the usable capacity of the battery as much as possible, it is recommended to set a charging target of 80% for daily operation and use (which can be switched to 100% before long distance journeys for example).

The availability of the maximum electrical output could be limited. The amount of power available in individual driving situations depends on various factors, such as ambient temperature and the charge status, temperature and condition or physical age of the high-voltage battery.

From 1st April 2021 zero emission electric vehicles (BEVs) are zero-rated standard tax for both the first year and all subsequent years.

Information regarding tyre technical specifications can be found by visiting the Škoda car configurator **here**.

The Electric Car Grant is a UK Government grant to promote the purchase of certain new electric vehicles. The grant is not exclusive to Volkswagen Group United Kingdom Limited. Selected Škoda Epiq, Elroq and Enyaq models are eligible for this Grant within Band 2, meaning eligible customers purchasing a qualifying vehicle will receive £1,500 off the purchase price. The grant is available when purchasing Epiq SE L 55, Epiq Edition 55 & Epiq First Edition 55. The grant is only available where the final purchase price of your vehicle (including options) is less than £42,000. Please speak to your local **Skoda Retailer** to clarify the purchase price and whether your chosen configuration qualifies for the grant. New cars only. The £1,500 will be automatically deducted from the purchase price for your vehicle on the retail invoice. Any discount or offer will be applied before application of the grant. Your authorised Škoda retailer will submit the details of your order in order to claim the grant funding. The grant is subject to full T&Cs and eligibility requirements and may be replaced, withdrawn or amended by the UK Government at any time. For more information, please contact your **Škoda retailer** or visit https://www.gov.uk/plug-in-vehicle-grants. Cannot be claimed retrospectively against previous orders. No cash alternative. UK only (excludes Channel Islands and Isle of Man). Vehicle must be registered in the UK and customer must pay UK VAT on purchase. Vehicle eligibility and grant figure correct as at 09/25.

VED (Vehicle Excise Duty) from 1st April 2026

VED Band	CO_2 (g/km)	Petrol/diesel/alternative fuel cars* (tax class 48, 49 and 59) 12 months
A	0	£10
B	1-50	£115
C	51-75	£135
D	76-90	£280
E	91-100	£365
F	101-110	£405
G	111-130	£455
H	131-150	£560
I	151-170	£1,410
J	171-190	£2,270
K	191-225	£3,420
L	226-255	£4,850
M	over 255	£5,690

OTR (On The Road)

Recommended 'On The Road' prices include delivery, 12 months Road Fund Licence, DVLA First Registration Fee and apply to the UK only.

VED (Vehicle Excise Duty)

All vehicles will be subject to Vehicle Excise Duty based on the fuel type of the vehicle and its carbon dioxide (CO_2) emissions level, measured in grams per kilometre (g/km). Due to changes in vehicle emissions data, CO_2 figures may differ on these vehicles if taken from current Škoda UK stock.

Vehicle Excise Duty (VED) is correct at time of publication, but this may alter to reflect any change in the applicable VED rate.

* This rate applies to diesel cars tested to real driving emissions step two (RDE2) standards

Note: Vehicles with a list price exceeding £50,000 (including factory installed options, delivery charge, number plates and VAT) will pay an additional £440 plus the standard rate VED from year 2 to, and including, year 6. After the 6th year only the standard rate VED will apply.

Benefit in Kind example

Based on Epiq SE L 40 38kWh 99kW		
P11D value		**£24,885.00**
Company car BiK tax based on CO_2 emission level		**4%**
Taxable BiK (for 2026/27 tax year):	4% of £24,885.00	**£995.40**
Annual company car tax (2026/27)		
20% income tax	20% of £995.40	**£199.08**
40% income tax	40% of £995.40	**£398.16**
Monthly company car tax (2026/27)		
20% income tax	£199.08 divided by 12 months	**£16.59**
40% income tax	£398.16 divided by 12 months	**£33.18**

Company car tax is based on the vehicle's carbon dioxide (CO_2) emissions. The higher the emissions, the higher its tax liability. When a company car is made available for private use a 'Benefit in Kind' value is calculated for tax purposes. The table above will help you calculate your tax liability.

P11D (expenses and benefits)

The P11D value is calculated by taking the On The Road (OTR) price for the vehicle, less the Road Fund Licence (RFL) and First Registration Fee (FRF).

BiK (Benefit in Kind)

The BiK percentage value is based on the CO_2 emissions of the vehicle for the current tax year 2026/27.

Pricing valid as of 30th July 2026.

All prices listed are Manufacturer's 'On the road' Recommended Retail Price. Škoda may change prices at any time (this includes where there are government changes in regulation and/or legislation). There may be a delay to any RRP displaying correctly on our materials. Always obtain prices from your chosen Retailer. Images shown do not reflect the stated entry level prices. The availability of the maximum electrical output could be limited. The amount of power available in individual driving situations depends on various factors, such as ambient temperature and the charge status, temperature and condition or physical age of the high-voltage battery.

Škoda, but not as you know it

The Epiq proudly showcases the evolution of our striking Modern Solid design language. A simple, authentic, yet rugged approach, Modern Solid allows the Epiq to feel compact yet remarkably robust.

Built with sustainability in mind, the exterior combines clean, modern design with purposeful detailing. Sculpted front and rear bumpers, sharp character lines and a confident stance create a premium, dynamic appearance. This eco-conscious philosophy flows inside, where highly durable, recycled materials create an interior that is as sustainable as it is sophisticated.

A new face

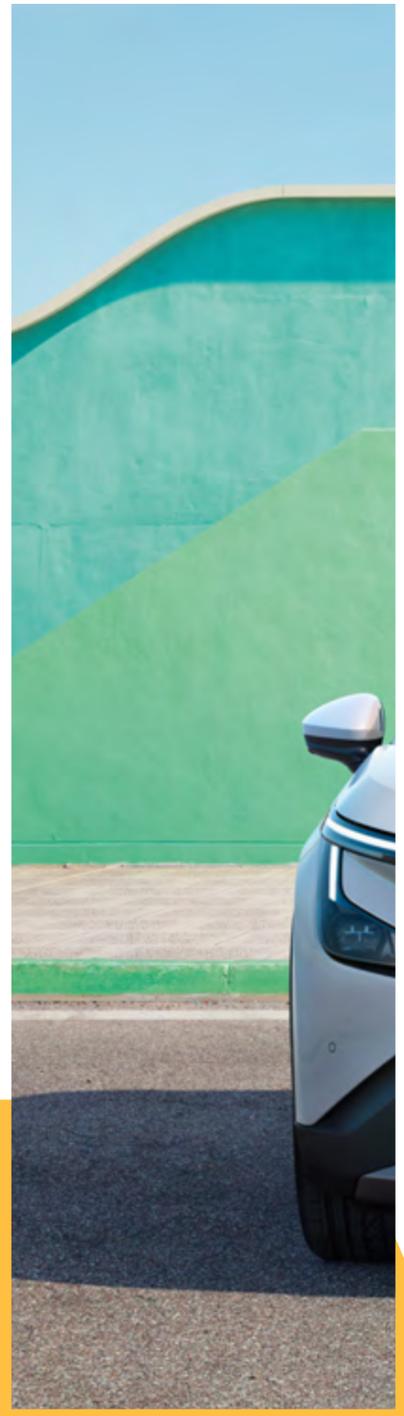

The Tech-Deck Face replaces the traditional Škoda grille, creating a flat, futuristic front-end which instantly commands attention. Behind this sleek, glossy black panel lies the heart of the car's advanced driver-assistance systems, housing the front camera and radar sensors. This seamless integration not only protects the technology but also delivers an ultra-clean, aerodynamically efficient look.

Headlight design

The minimalist T-shaped LED light signature at both the front and rear ensures the Epiq is instantly recognisable day or night. The razor-sharp upper LED strips serve as dual-purpose daytime running lights and indicators, while the main headlights are tucked below. Optional Matrix LED technology dynamically adjusts to your surroundings to provide maximum visibility without dazzling oncoming drivers.

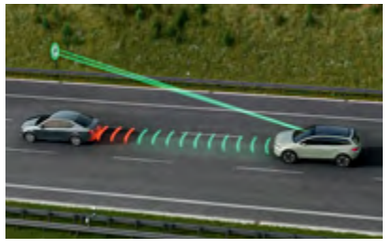

Models shown are not UK specification. Some of the equipment shown is optional.

Safety at the forefront

A range of active and passive safety and driver assistance systems help to keep you and your passengers safe on every journey.

Models shown are not UK specification. Some of the equipment shown is optional.

Predictive adaptive cruise control

Control your speed automatically with predictive adaptive cruise control, which uses the radar in the front grille to maintain a constant distance from the vehicle in front at speeds of 15mph or more. It also uses traffic sign recognition and GPS technology to adjust the cruise speed when necessary - typically before a turn or roundabout, or when entering an area with a lower speed limit.

Turn assist

When the vehicle is turning, sensors in the front of the vehicle detect oncoming vehicles and brakes if needed to prevent a head-on collision.

7 airbags

Seven airbags as standard, including a centre airbag for maximum occupant safety.

Lane assist plus

Helping you stay in the intended lane of travel, lane assist plus uses a camera to detect road markings, and supports steering if you veer too close to the edge.

Blind spot detection

An extra set of eyes on the road that monitors the blind spots allowing you to manoeuvre safely. An acoustic warning will also sound if the vehicle's door is opened that could collide with a vehicle, cyclist, pedestrian or electric scooter.

Park assist & remote park assist

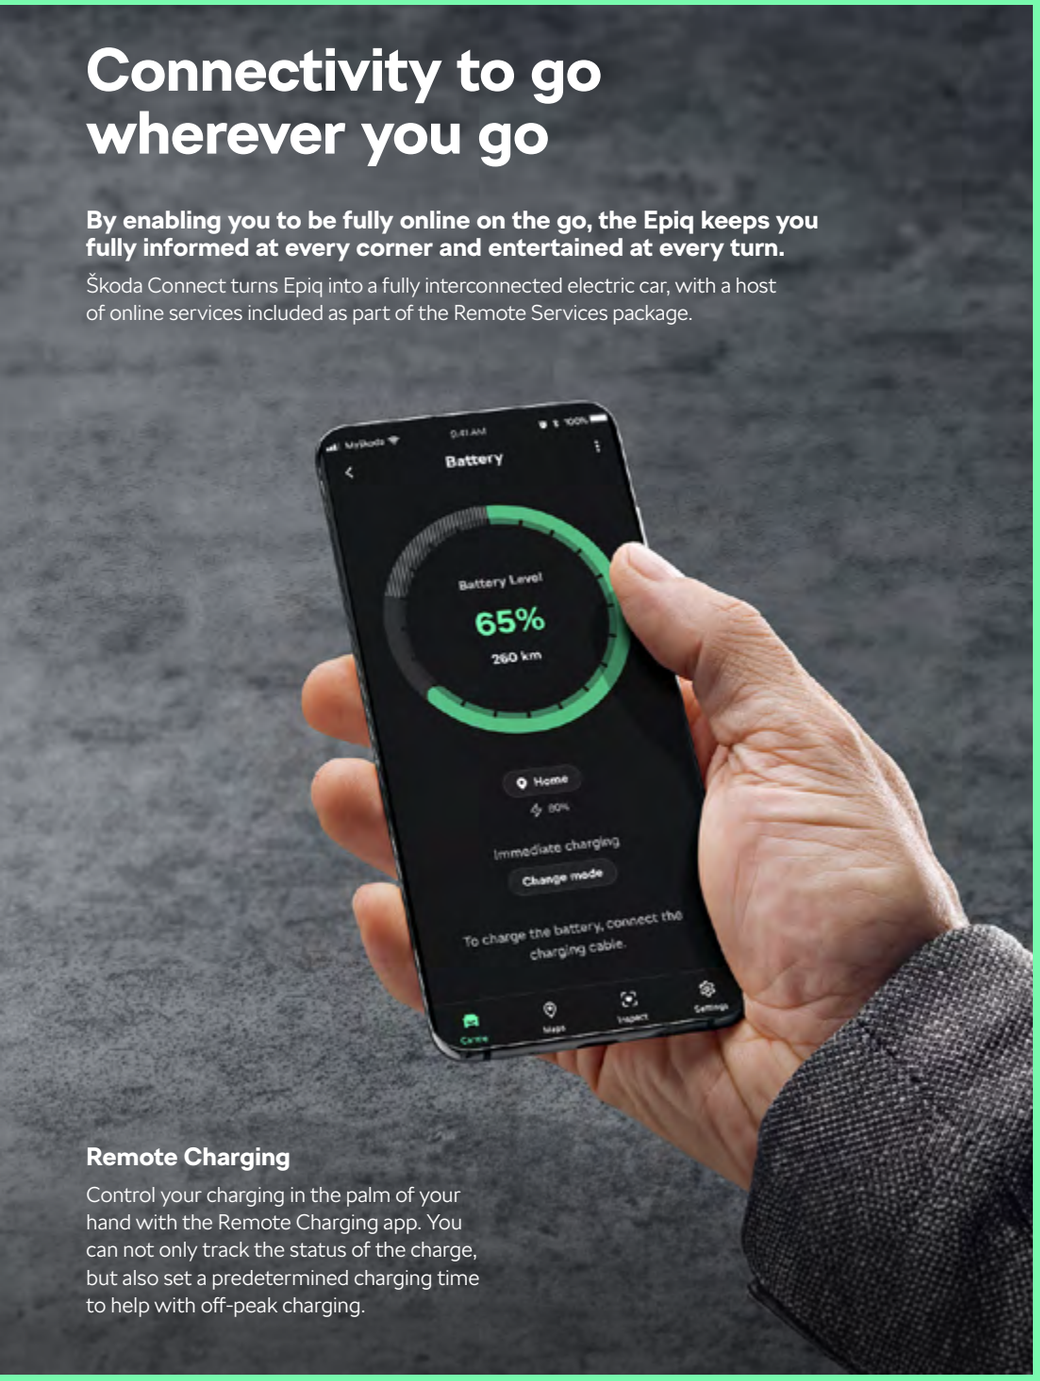

This function removes the stress of bay and parallel parking by identifying if the parking spot is big enough before automatically steering into the space. Remote park assist allows you to remotely move the car out of a parking space via the MySkoda app.

Innovation at every turn

Connectivity to go wherever you go

By enabling you to be fully online on the go, the Epiq keeps you fully informed at every corner and entertained at every turn.

Škoda Connect turns Epiq into a fully interconnected electric car, with a host of online services included as part of the Remote Services package.

Remote Charging

Control your charging in the palm of your hand with the Remote Charging app. You can not only track the status of the charge, but also set a predetermined charging time to help with off-peak charging.

Mobile Digital Key

Your Epiq fits seamlessly into your digital life with the digital key. Once set up via the MyŠkoda app, your smartphone becomes your key – allowing you to lock, unlock and start the vehicle with ease. You can also share access securely with others, such as family members, directly through your phone's built-in wallet app.

Smart Schedules & Remote Air Conditioning

Take control of your charging and comfort with Smart Schedules. Simply plug in and let the car optimise charging around cheaper off-peak tariffs, with different settings for locations like home or work. You can also pre-set the cabin temperature before you set off, ensuring your Epiq is perfectly warmed or cooled and ready to go – whatever the weather.

eCALL

In the event of an emergency on the road, the Epiq will automatically send an SOS signal for help to give you extra peace of mind. This is triggered as soon as the airbag or belt tensioners report a major accident.

Alternatively, you can press the manual SOS button to call the emergency services directly to report an accident or raise the alarm about another traffic incident you've witnessed.

Digital Cockpit

The Epiq showcases electric innovation at every turn. Dashboard included. Forget old-fashioned dials, here you'll find a full-colour Digital Cockpit featuring a range of display layouts that can be toggled via the steering wheel. These include Basic, Navigation, Assist Systems, and Goodbye View.

Smartphone integration

With SmartLink, which integrates Apple CarPlay and Android Auto, you can safely use some of your phone's features while driving.

Some of the equipment shown is optional.

Škoda Connect
Find out more

Small ideas for big impact

A range of small touches combine to make the Epiq a breeze to live with. Clever concepts and practical features that make life that little bit easier.

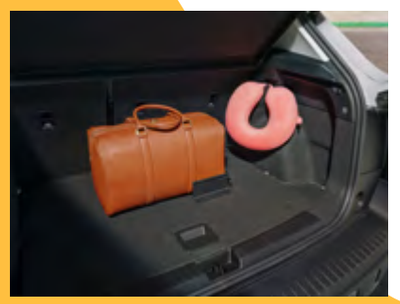

Umbrella storage compartment

Never let a soggy day dampen your spirits again with this handy driver's door compartment. Designed to fit the original Škoda umbrella, it also cleverly drains water away from the car. Plus, the umbrella incorporates sustainable materials into its design.

Smart Boot Features

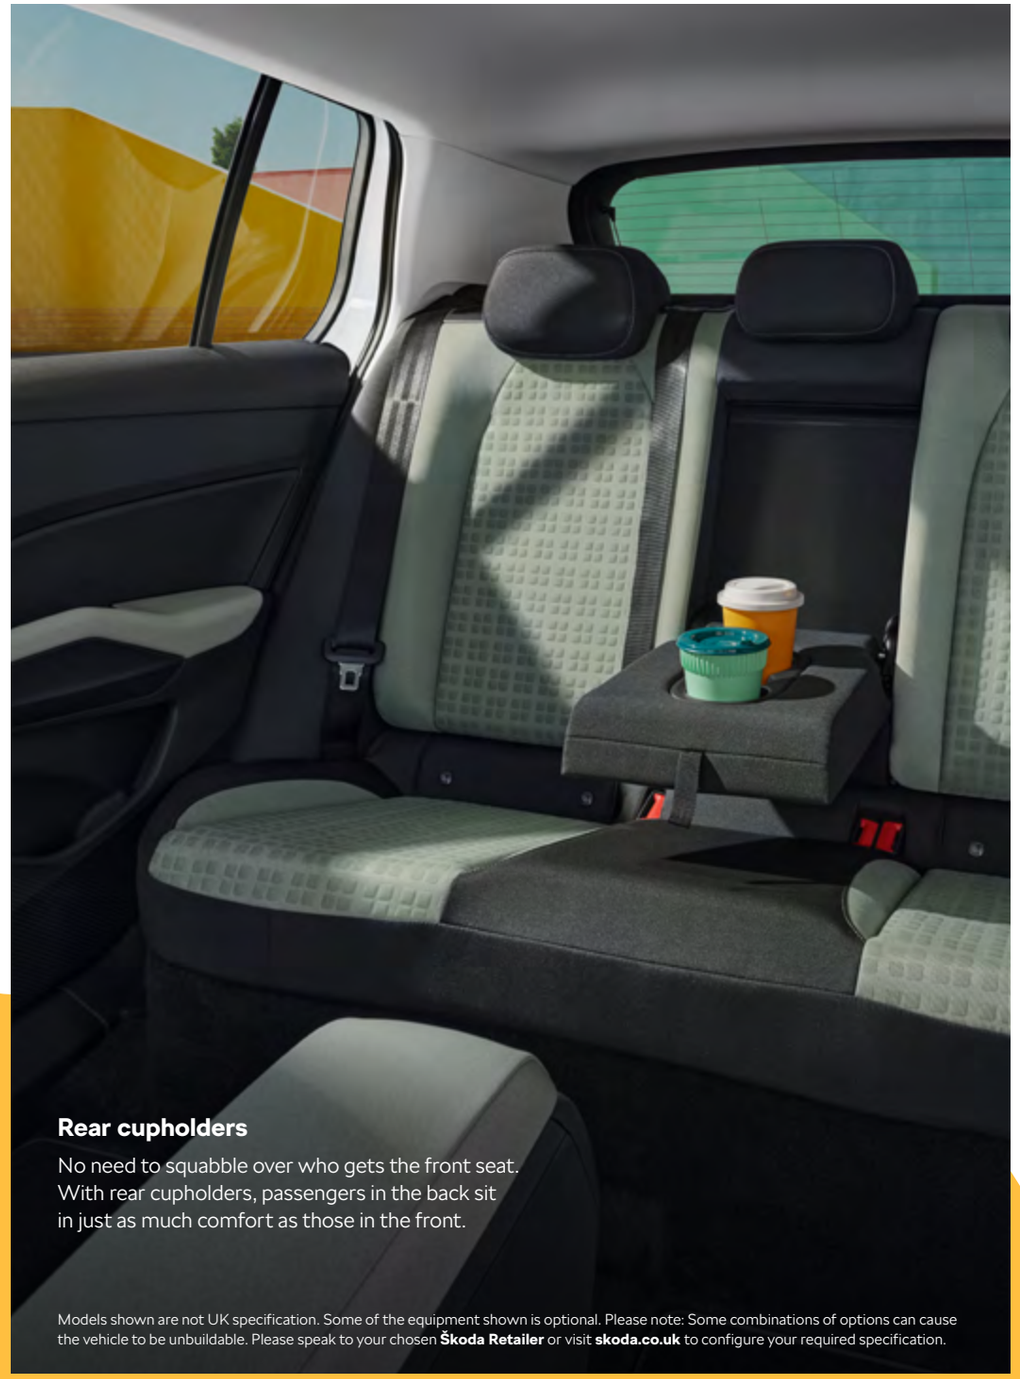

The Epiq's boot is designed for everyday practicality. Two sturdy side hooks keep items securely hung and off the floor, while Škoda's cargo fastener holds boxes or shopping bags in place, preventing movement and keeping everything neatly organised.

Mobile phone pockets

Front seat-back pockets can be too large for small phones, so the Epiq adds a smaller pocket ideal for rear passengers' devices.

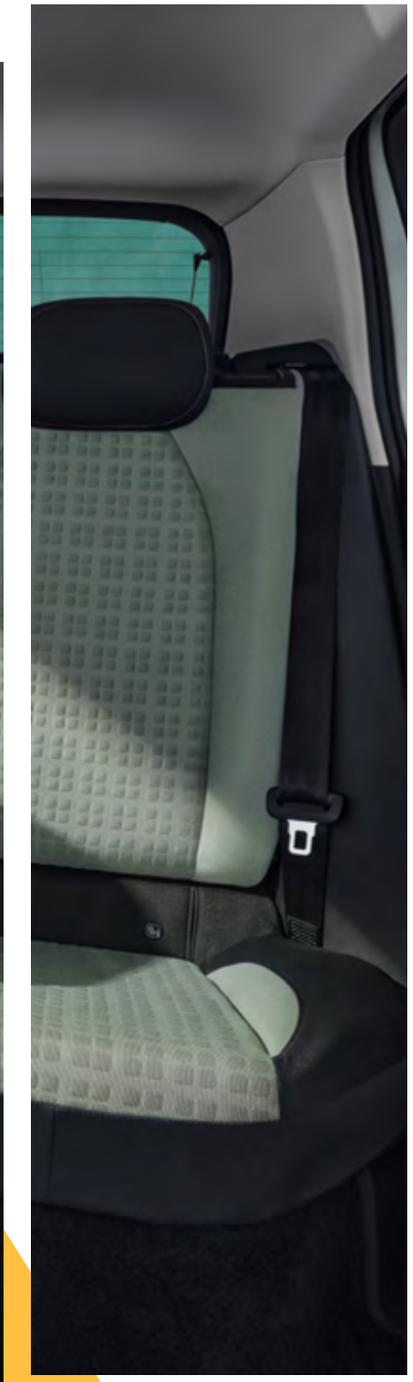

Rear cupholders

No need to squabble over who gets the front seat. With rear cupholders, passengers in the back sit in just as much comfort as those in the front.

Models shown are not UK specification. Some of the equipment shown is optional. Please note: Some combinations of options can cause the vehicle to be unbuildable. Please speak to your chosen **Škoda Retailer** or visit **skoda.co.uk** to configure your required specification.

Compact size, maximum practicality

Generous boot space

Small car, big possibilities. The Epiq boasts a generous 475-litre boot, one of the largest in its class. For a big shop or weekend adventure, folding down the seats opens up 1,345 litres of versatile space.

Models shown are not UK specification. Some of the equipment shown is optional. Please note: Some combinations of options can cause the vehicle to be unbuildable. Please speak to your chosen **Škoda Retailer** or visit **skoda.co.uk** to configure your required specification.

Variable boot floor

The practical variable boot floor with storage space under the floor will help you to keep your luggage compartment tidy. Do you have accessories in your car that you want to take with you wherever you travel, but rarely use? Storage space under the floor is the ideal solution for them.

Tow bar

The Epiq can be equipped with a foldable tow bar with electric release via a switch in the luggage compartment.

Please note, if a tow bar or tow bar preparation is not fitted on the car, the VIN plate may not show any towing weights and the car will never be eligible for towing. As such it may not be possible to retrospectively fit a tow bar if the car is not fitted with tow bar preparation at Factory. Please speak to your chosen **Škoda Retailer** to confirm the exact towing eligibility.

Frunk

Add extra storage space with the optional front luggage compartment, ideal for charging cables and everyday essentials. Easy to access and separate from the main luggage area, it helps keep your belongings neatly organised.

Loft Grey
Design Selection

Calm, elegant, and effortlessly cool. A sophisticated blend of timeless greys and sustainable materials. Standard on SE L & Edition.

Sustainability in mind

The Epiq proves you don't have to choose between comfort and a lighter footprint. Across our Design Selections, the seat textiles are made from 100% recycled PES, bringing a more responsible choice of material into everyday driving. Loft adds a fresh feel with a new embossed pattern and Techtona, a synthetic leather alternative, on the dashboard and door panels.

Comfortable interior

The spacious interior features high-quality materials, easy access to essential driver controls and ample room for both passengers and luggage. Designed for comfort and convenience, every drive is a pleasure.

Models shown are not UK specification. Some of the equipment shown is optional.

Loft Mint
Design Selection

Our hero look. Fresh Mint fabrics meet green stitching for a bold, playful, and modern vibe.
Optional on Edition.

Mint accents

Add some individuality to your Epiq with mint seat fabrics, dash and stitching. Adding a splash of colour and character.

Interior lighting

Thoughtfully integrated ambient lighting creates a warm and welcoming atmosphere throughout the cabin. Soft, customisable illumination highlights key interior features, enhancing comfort and refinement on every journey. Whether driving by day or night, the subtle glow adds a premium feel while allowing you to personalise the mood to suit your style.

Models shown are not UK specification. Some of the equipment shown is optional.

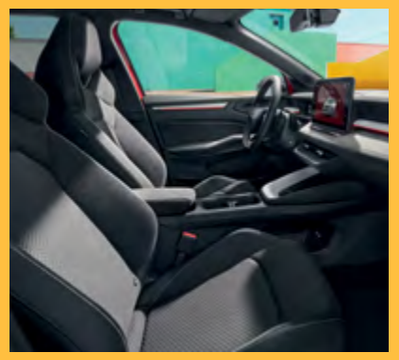

SportLine Design Selection

Designed to make a statement, the SportLine Design Selection combines sporty styling with premium comfort. Microsuede and artificial leather upholstery, integrated sports seats and distinctive white stitching create a dynamic interior with a driver-focused feel. Standard on SportLine.

Sports interior

Sports seats with integrated head restraints, a heated multifunction steering wheel and aluminium pedals create a dynamic cabin environment with a premium feel.

Distinctive details

Exclusive SportLine upholstery, white contrast stitching and ambient lighting create a sporty modern interior.

Gain an eye in the sky when parking. Area view gives you a 360 degree view around your car, helping to make parking a breeze.

CANTON sound system

Set the perfect tone for every journey with this set of speakers and digital equaliser. Created in collaboration with German audio experts CANTON, you can be confident every album, radio show or podcast will be pitch perfect as the system has been fine-tuned to suit the Epiq's interior.

Frunk

Add extra storage space with the optional front luggage compartment, ideal for charging cables and everyday essentials. Easy to access and separate from the main luggage area, it helps keep your belongings neatly organised.

Park assist with remote park assist

Somebody parked too close to you? You can navigate your Epiq out of a parking space remotely via the MySkoda app, moving it straight forwards or backwards.

Trained parking

Trained Parking allows your Epiq to automatically park itself in a familiar setting such as your home or workplace from as far as 50m away.

Heated door mirrors

Door mirrors heated, electrically adjustable and electrically foldable

Models shown are not UK specification. Some of the equipment shown is optional. Please note: Some combinations of options can cause the vehicle to be unbuildable. Please speak to your chosen **Škoda Retailer** or visit **skoda.co.uk** to configure your required specification.

Light & View Package

See more of every drive with Full LED Matrix beam headlights adapting to changing conditions and an integrated all-weather function to help improve visibility when you need it most.
Plus distinctive rear LED lights with animated indicators to complete the look.
Optional on Edition.

Full LED Matrix headlights

Style and function. These upgraded headlights not only look the part, but they also blank out part of their beam to prevent dazzling oncoming traffic, provide additional light when cornering, and include a fog light function.

Models shown are not UK specification. Some of the equipment shown is optional. Please note: Some combinations of options can cause the vehicle to be unbuildable. Please speak to your chosen **Škoda Retailer** or visit **skoda.co.uk** to configure your required specification.

Figures shown are for comparability purposes; only compare fuel consumption, CO_2 and electric range figures with other vehicles tested to the same technical procedures. These figures may not reflect real life driving results, which will depend upon a number of factors including the accessories fitted (post-registration), variations in weather, driving styles, vehicle load and the starting charge of the battery. Figures for battery electric vehicles were obtained after the battery had been fully charged. Battery electric vehicles require mains electricity for charging. Charging times will depend on various factors, including temperature, state of the battery, state of and capabilities of the charging unit and power supply. Actual charging time will vary depending on the level of charge in the battery, as well as environmental conditions. Charging times will also be affected by the charging curve for example once charging passes 80%, charging will slow to protect the battery's longevity. The availability of the maximum electrical output could be limited. The amount of power available in individual driving situations depends on various factors, such as ambient temperature and the charge status, temperature and condition or physical age of the high-voltage battery. Data correct at production from 30th July 2026. Choice of wheels and other options may affect consumption and range data. For more information, please see **skoda.co.uk/owners/wltp-info** or consult your chosen **Škoda Retailer**.

Information regarding tyre technical specifications can be found by visiting the Škoda car configurator **here**.

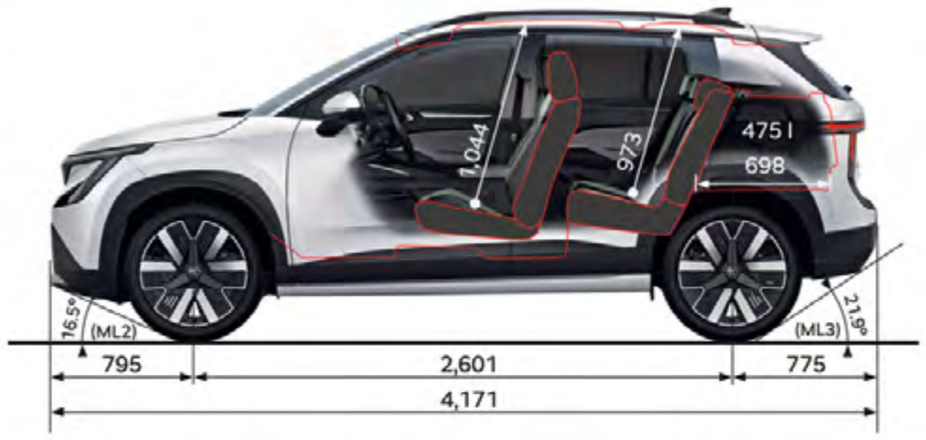

* Please note: If a tow bar or tow bar preparation is not fitted on the car, the VIN plate may not show any towing weights and the car will never be eligible for towing. As such it may not be possible to retrospectively fit a tow bar if the car is not fitted with tow bar preparation at Factory. Please speak to your chosen **Škoda Retailer** to confirm the exact towing eligibility.

Additional information

Škoda Financial Services

Škoda Financial Services offer a wide range of finance, insurance and servicing packages designed to fit your needs. We specialise in providing simple and convenient funding options for Škoda drivers.

Be free to make the switch to electric with Škoda Lease&Care, a leasing agreement with a level of servicing included in your monthly payments, that allows you to drive a Škoda Epiq without needing to own it.

The simplicity of this finance plan means all servicing and car costs are covered in one easy, single monthly payment. Just follow these three simple steps:

1. Select your chosen Škoda Epiq.

2. Choose how long you want it for and how many miles you drive.

3. Choose a care package built around you and your driving style.

With no lump sum to pay at the end of your agreement, you're free to move straight into your next Škoda or stay in your Epiq for longer, as all options are built around you.

Škoda Financial Services can also offer a Solutions Personal Contract Plan, hire purchase or Contract Hire package for your Škoda Epiq. Please speak to your chosen **Škoda Retailer** to discuss your requirements and for your personalised quotation today.

An offer of finance depends on certain conditions. Subject to status. Available to 18s and over in the UK only. Terms and conditions apply. Škoda Financial Services.

Škoda Car Insurance

Complimentary Škoda Drive Away Insurance

Every new and Approved Used Škoda comes with five days' complimentary insurance cover, getting you on the road quickly and easily so you can enjoy the things that matter. Škoda Drive Away Insurance is designed specifically for your Škoda and guarantees that your car will be repaired in a Škoda Approved Repairer. Speak to your chosen **Škoda Retailer** for more details.

Subject to eligibility.

We will also provide you with an annual quote, with no additional questions asked, so you can continue to enjoy all the benefits Škoda Car Insurance offers.

Read on for more details.

Škoda Car Insurance

Škoda Car Insurance offers quality service and support when you need it most, with a policy tailored specifically for your Škoda. Just as you'd expect from Škoda, our annual car insurance provides comprehensive cover, with lots of benefits included at no extra cost.

Insure your car with Škoda and relax knowing we only use Škoda trained technicians, who know your car inside out, and Škoda genuine parts*, giving you the peace of mind that your Škoda will be repaired to the same high standards as before and to original manufacturer specifications.

You also have the added reassurance of electric charging cables and home charger cover, as well as cover for accidents caused by any electric charging cables, when attached to your car. Plus, we'll cover damage to your car's electric battery, whether it is owned or leased, if it becomes damaged as a result of an insured incident.

*Excludes windscreen claims.

To get a quote or find out more, visit **insurewithskoda.vwfs.co.uk/car-insurance**

Alternatively, call us on **0330 678 6328**. Lines are open 8am-8pm Monday to Friday and 9am-5pm Saturday and Bank Holidays. Calls may be recorded.

Skoda Car insurance is arranged, underwritten and administered by Liverpool Victoria Insurance Company Limited.

Volkswagen Financial Services Limited (VWFS UK) acts as an introducer to Liverpool Victoria Insurance Company Limited in respect of Skoda Car Insurance, registered in England and Wales Company Number 2835230 (Registered Office Address: Brunswick Court, Yeomans Drive, Blakelands, Milton Keynes MK14 5LR). VWFS UK is authorised and regulated by the Financial Conduct Authority, registration number 311988. Authorisation details for both organisations can be checked on the Financial Services Register by visiting https://www.fca.org.uk/firms/financial-services-register.

Service and maintenance

Our range of servicing and maintenance plans will help to keep your Škoda in prime condition. Plus, the price is fixed so you won't be caught out by any unbudgeted costs.

All our service plans use genuine Škoda approved parts and trained technicians so you know your car is in the hands of experts. Parts and labour also come with two years warranty too.

Service Plans for Electric Vehicles under one year old

This includes your vehicle's first service, covering you for two years for a fixed payment, protecting you from inflation. You can choose to pay upfront or monthly. The Service Plan includes a maximum of one inspection service, one pollen filter change and one brake fluid change. Electric vehicle services are set to a fixed regime.

Our service plans are designed for customers that travel 15,000 miles or less per year. If you travel over 15,000 miles per year, or would prefer to add maintenance or tyres, then speak to your chosen **Škoda Retailer** to create a more tailored service plan.

All electric vehicles must be set to a fixed service regime. Exclusions and terms and conditions apply. Offer is available to retail customers only from participating Škoda Retailers. Offers may be varied or withdrawn at any time. Freepost Škoda Financial Services.

Škoda Financial Services is a trading name of Volkswagen Financial Services (UK) Limited, Brunswick Court, Yeomans Drive, Blakelands, Milton Keynes MK14 5LR. Registered in England number 2835230.

Service intervals

Your Epiq is supplied with a fixed service regime to ensure that your car stays in the best possible shape. A service light will show when the car requires inspection at 24 months.

To keep your Epiq operating as it should we recommend the following work is carried out every 24 months:

- Inspection – we'll make sure all the components and systems work as they should.
- Pollen Filter – we'll renew the Pollen Filter to keep your vehicle cabin clear of dust and odours.
- Brake Fluid – we'll renew your brake fluid to maintain braking efficiency and function.

Roadside assistance

A one year, European-wide, unlimited mileage Škoda Assistance policy comes free of charge with every new Škoda. There's a team of specially trained technicians who carry the right diagnostic equipment and parts to get you back on the road as quickly as possible in the unfortunate event of a breakdown.

Škoda Roadside Assistance 24-hour helpline: 0330 100 3243.

Provided in partnership with the AA. Exclusions and terms and conditions apply. For details please speak to your chosen **Škoda Retailer**.

Customer services

Talk to us on **03330 037 504**. No matter what the query, our dedicated call centre is always ready to listen. No matter how big or small the request, speak to one of our customer care advisors to see if they can help. The call centre is open Monday to Friday from 8.30am-5.30pm. You can also talk to one of our advisers via live chat, open Monday to Sunday from 8am-10pm.

A network that's here to help

You can be sure that as a Škoda customer, your chosen **Škoda Retailer** will look after you from the moment you walk through the door and throughout the life of your Škoda. Your Epiq will be serviced and maintained by specially trained Škoda technicians, and when you need a spare part you'll be happy to know that most are held in stock, or ordered within 24 hours. So if top class customer satisfaction is what you're after, the Škoda network will be there for you.

Additional information – continued

Motability

People who are in receipt of one of the following allowances, and have at least 12 months remaining on their reward, may be eligible for a vehicle via the Motability scheme.

Enhanced Rate of the Mobility Component of Personal Independence Payment (PIP), Higher Rate Mobility Component of Disability Living Allowance (HRMC DLA), War Pensioners' Mobility Supplement (WPMS), Armed Forces Independence Payment (AFIP), Higher Rate Mobility Component of the Child Disability Payment (CDP), or Enhanced Rate Mobility Component of the Adult Disability Payment (ADP).

For full details of the scheme, current model availability and pricing, please contact the Motability specialist at your chosen **Škoda Retailer**.

Warranty

Peace of mind with a Škoda warranty

In the first two years of owning your car, you'll get the peace of mind of a two year unlimited mileage warranty. In addition, you'll also get a further warranty on new vehicles supplied through the appointed retail network until the vehicle has completed 60,000 miles or the end of the third year, whichever is sooner. Your Epiq also benefits from a three-year paint warranty and 12-year body protection warranty. Exclusions and terms and conditions apply.

Owning a Škoda

Three-year vehicle warranty from new
First two years unlimited mileage.
Third year with 60,000 mile limitation, whichever is sooner.
Four to five years Optional Extended Warranty.

Three-year paint warranty
Up to 12 years body protection.

Exclusions and limitations

Wear and tear components will only be considered under the terms of the warranty for the first six months or 6,500 miles, whichever is soonest. These include, but are not limited to brake linings and disc pads, clutch release bearings, clutch pressure plates and centre plates, tyres, wiper blades, seat and backrest covers, floor coverings, spark plugs, batteries for key fobs and alarms, light bulbs and shock absorbers. Mechanical adjustments including but not limited to adjustments to doors, flaps, boot lids, bonnets and sunroof, brake adjustment, clutch adjustment, v belt adjustment, headlight adjustment, steering geometry adjustments and wheel balancing are excluded.

Damage (including but not limited to the following) is excluded:

> Damage caused by your failure to take all reasonable steps to prevent mechanical damage from occurring.
> Damage or defects caused by not having the vehicle serviced in accordance with the manufacturer's guidelines.
> Damage or defects caused by improper use of the vehicle, neglect or use of the vehicle for motor sports activities.
> Damage caused by an accident.
> Damage to paintwork or chrome caused by external influences, such as climatic, chemical or industrial pollution.
> Damage resulting from the use of non-original replacement parts.

Routine maintenance and servicing is not covered by the warranty. Incidental or consequential costs such as hotel charges, car hire, and loss of personal effects or income are not recoverable under the terms of the warranty.

8 Year high-voltage battery Warranty

Free repair of the high-voltage battery, if the damage occurs within 8 years or before reaching a mileage of 100,000 miles (whichever occurs first) from the beginning of the Škoda warranty. Reduction in the capacity of the high-voltage battery over time is a natural feature of technology and does not constitute a defect within the meaning of the Škoda warranty (this is with regards to a natural lock), provided that this value measured by the Škoda service partner does not fall below 70% of the total usable capacity before the expiry of 8 years or before the achievement of 100,000 miles (whichever comes first) from the beginning of the Škoda warranty.

In the event of a claim under the Škoda warranty regarding damage to the high-voltage battery, the capacity of the high-voltage battery after fault rectification is at least 70% of the total usable capacity, and this is in consideration of all relevant factors including the age, condition and the mileage of the vehicle. There shall be no further claims arising from the Škoda Warranty. In particular, no claim for replacement, no right of withdrawal, no claim to purchase price reduction, or provision of a replacement car for the duration of repair and compensation.

Adding that little extra to your car

If the standard specification and factory fitted options aren't enough for you, then why not take a look at our range of Retailer fitted accessories? A separate accessories brochure can be found at your chosen **Škoda Retailer**, or can be viewed online at: **skoda.co.uk/owners/accessories-and-merchandise**

Figures shown are for comparability purposes; only compare fuel consumption, CO_2 and electric range figures with other vehicles tested to the same technical procedures. These figures may not reflect real life driving results, which will depend upon a number of factors including the accessories fitted (post-registration), variations in weather, driving styles, vehicle load and the starting charge of the battery. In order to preserve the usable capacity of the battery as much as possible, it is recommended to set a charging target of 80% for daily operation and use (which can be switched to 100% before long distance journeys for example). Figures for battery electric vehicles were obtained after the battery had been fully charged. Battery electric vehicles require mains electricity for charging. Data correct at 30th July 2026. Choice of wheels and other options may affect consumption and range data. For more information, please see **skoda.co.uk/owners/wltp-info** or consult your chosen **Škoda Retailer**.

Škoda UK may change RRPs at any time (this includes where there are government changes in regulation and/or legislation). There may be a delay to any RRP displaying correctly on our materials. Always obtain prices from your chosen **Škoda Retailer**.
