ŠKODA

Elroq

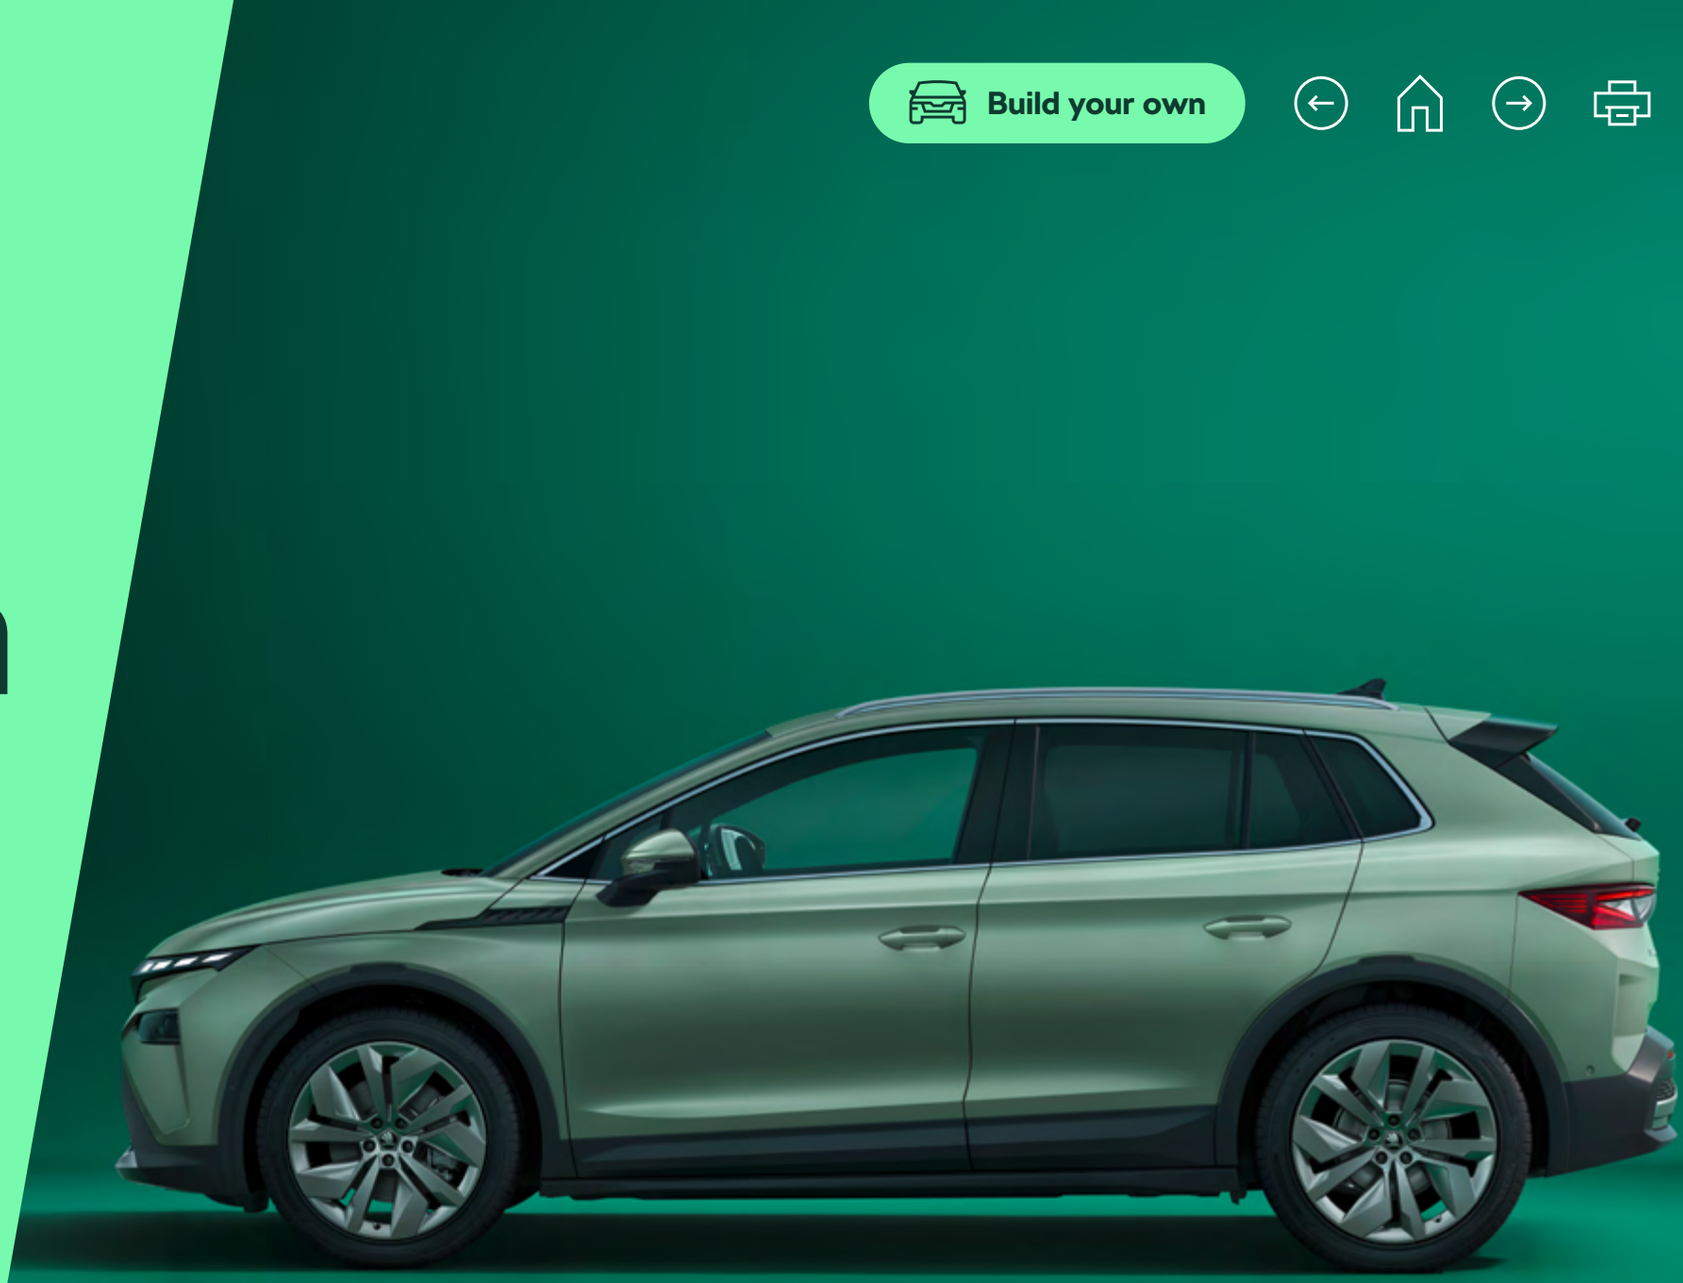
Effective: 10th August 2026

A new era

Introducing a new era of Škoda.
A new approach to design.
An electric car that ticks all the boxes.

The all-electric Škoda Elroq.

A wide range of comfort, technology and safety features means the Elroq supports and enhances daily life. A variety of battery options all provide a strong range of emission-free miles, and a selection of interiors and paint colours ensure your Elroq reflects your personality perfectly.



Models shown are not UK specification.

On The Road and P11D pricing

Elroq SE L	VED Band	Insurance group (50)	Recommended Basic (excl VAT)	VAT	RRP	Recommended OTR	BiK 2026/27	P11D value	Recommended OTR with ECG deducted

Pricing valid as of 10th August 2026.

All prices listed are Manufacturer's 'On the road' Recommended Retail Price. Škoda may change prices at any time (this includes where there are government changes in regulation and/or legislation). There may be a delay to any RRP displaying correctly on our materials. Always obtain prices from your chosen Retailer. Images shown do not reflect the stated entry level prices.

In order to preserve the usable capacity of the battery as much as possible, it is recommended to set a charging target of 80% for daily operation and use (which can be switched to 100% before long distance journeys for example).

The availability of the maximum electrical output could be limited. The amount of power available in individual driving situations depends on various factors, such as ambient temperature and the charge status, temperature and condition or physical age of the high-voltage battery.

From 1st April 2021 zero emission electric vehicles (BEVs) are zero-rated standard tax for both the first year and all subsequent years.

Information regarding tyre technical specifications can be found by visiting the Škoda car configurator **here**.

The Electric Car Grant is a UK Government grant to promote the purchase of certain new electric vehicles. The grant is not exclusive to Volkswagen Group United Kingdom Limited. Selected Škoda Elroq and Enyaq models are eligible for this Grant within Band 2, meaning eligible customers purchasing a qualifying vehicle will receive £1,500 off the purchase price. The grant is available when purchasing Elroq SE 50, Elroq SE L 60, Elroq SE L 85, Elroq Edition 60, Elroq Edition 85, Elroq SportLine 60, and Elroq SportLine 85. The grant is only available where the final purchase price of your vehicle (including options) is less than £42,000. Please speak to your local **Skoda Retailer** to clarify the purchase price and whether your chosen configuration qualifies for the grant. New cars only. The £1,500 will be automatically deducted from the purchase price for your vehicle on the retail invoice. Any discount or offer will be applied before application of the grant. Your authorised Škoda retailer will submit the details of your order in order to claim the grant funding. The grant is subject to full T&Cs and eligibility requirements and may be replaced, withdrawn or amended by the UK Government at any time. For more information, please contact your **Škoda Retailer** or visit https://www.gov.uk/plug-in-vehicle-grants. Cannot be claimed retrospectively against previous orders. No cash alternative. UK only (excludes Channel Islands and Isle of Man). Vehicle must be registered in the UK and customer must pay UK VAT on purchase. Vehicle eligibility and grant figure correct as at 09/25.

VED (Vehicle Excise Duty) from 1st April 2025

VED Band	CO_2 (g/km)	Petrol/diesel/alternative fuel cars* (tax class 48, 49 and 59) 12 months
A	0	£10
B	1-50	£115
C	51-75	£135
D	76-90	£280
E	91-100	£365
F	101-110	£405
G	111-130	£455
H	131-150	£560
I	151-170	£1,410
J	171-190	£2,270
K	191-225	£3,420
L	226-255	£4,850
M	over 255	£5,690

OTR (On The Road)

Recommended 'On The Road' prices include delivery, 12 months Road Fund Licence, DVLA First Registration Fee and apply to the UK only.

VED (Vehicle Excise Duty)

All vehicles will be subject to Vehicle Excise Duty based on the fuel type of the vehicle and its carbon dioxide (CO_2) emissions level, measured in grams per kilometre (g/km). Due to changes in vehicle emissions data, CO_2 figures may differ on these vehicles if taken from current Škoda UK stock.

Vehicle Excise Duty (VED) is correct at time of publication, but this may alter to reflect any change in the applicable VED rate.

* This rate applies to diesel cars tested to real driving emissions step two (RDE2) standards

Note: Vehicles with a list price exceeding £50,000 (including factory installed options, delivery charge, number plates and VAT) will pay an additional £440 plus the standard rate VED from year 2 to, and including, year 6. After the 6th year only the standard rate VED will apply.

Benefit in Kind example

Based on Elroq SE L 60 61kWh 140kW		
P11D value		**£33,905.00**
Company car BiK tax based on CO_2 emission level		**4%**
Taxable BiK (for 2026/27 tax year):	4% of £33,905.00	**£1,356.20**
Annual company car tax (2026/27)		
20% income tax	20% of £1,356.20	**£271.24**
40% income tax	40% of £1,356.20	**£542.48**
Monthly company car tax (2026/27)		
20% income tax	£271.24 divided by 12 months	**£22.60**
40% income tax	£542.48 divided by 12 months	**£45.21**

Company car tax is based on the vehicle's carbon dioxide (CO_2) emissions. The higher the emissions, the higher its tax liability. When a company car is made available for private use a 'Benefit in Kind' value is calculated for tax purposes. The table above will help you calculate your tax liability.

P11D (expenses and benefits)

The P11D value is calculated by taking the On The Road (OTR) price for the vehicle, less the Road Fund Licence (RFL) and First Registration Fee (FRF).

BiK (Benefit in Kind)

The BiK percentage value is based on the CO_2 emissions of the vehicle for the current tax year 2026/27.

Pricing valid as of 10th August 2026.

All prices listed are Manufacturer's 'On the road' Recommended Retail Price. Škoda may change prices at any time (this includes where there are government changes in regulation and/or legislation). There may be a delay to any RRP displaying correctly on our materials. Always obtain prices from your chosen Retailer. Images shown do not reflect the stated entry level prices. The availability of the maximum electrical output could be limited. The amount of power available in individual driving situations depends on various factors, such as ambient temperature and the charge status, temperature and condition or physical age of the high-voltage battery.

Škoda, but not as you know it

The Elroq is the first Škoda to be completely created with the Modern Solid design language. A simple yet rugged approach, Modern Solid allows the Elroq to be bold yet refined.

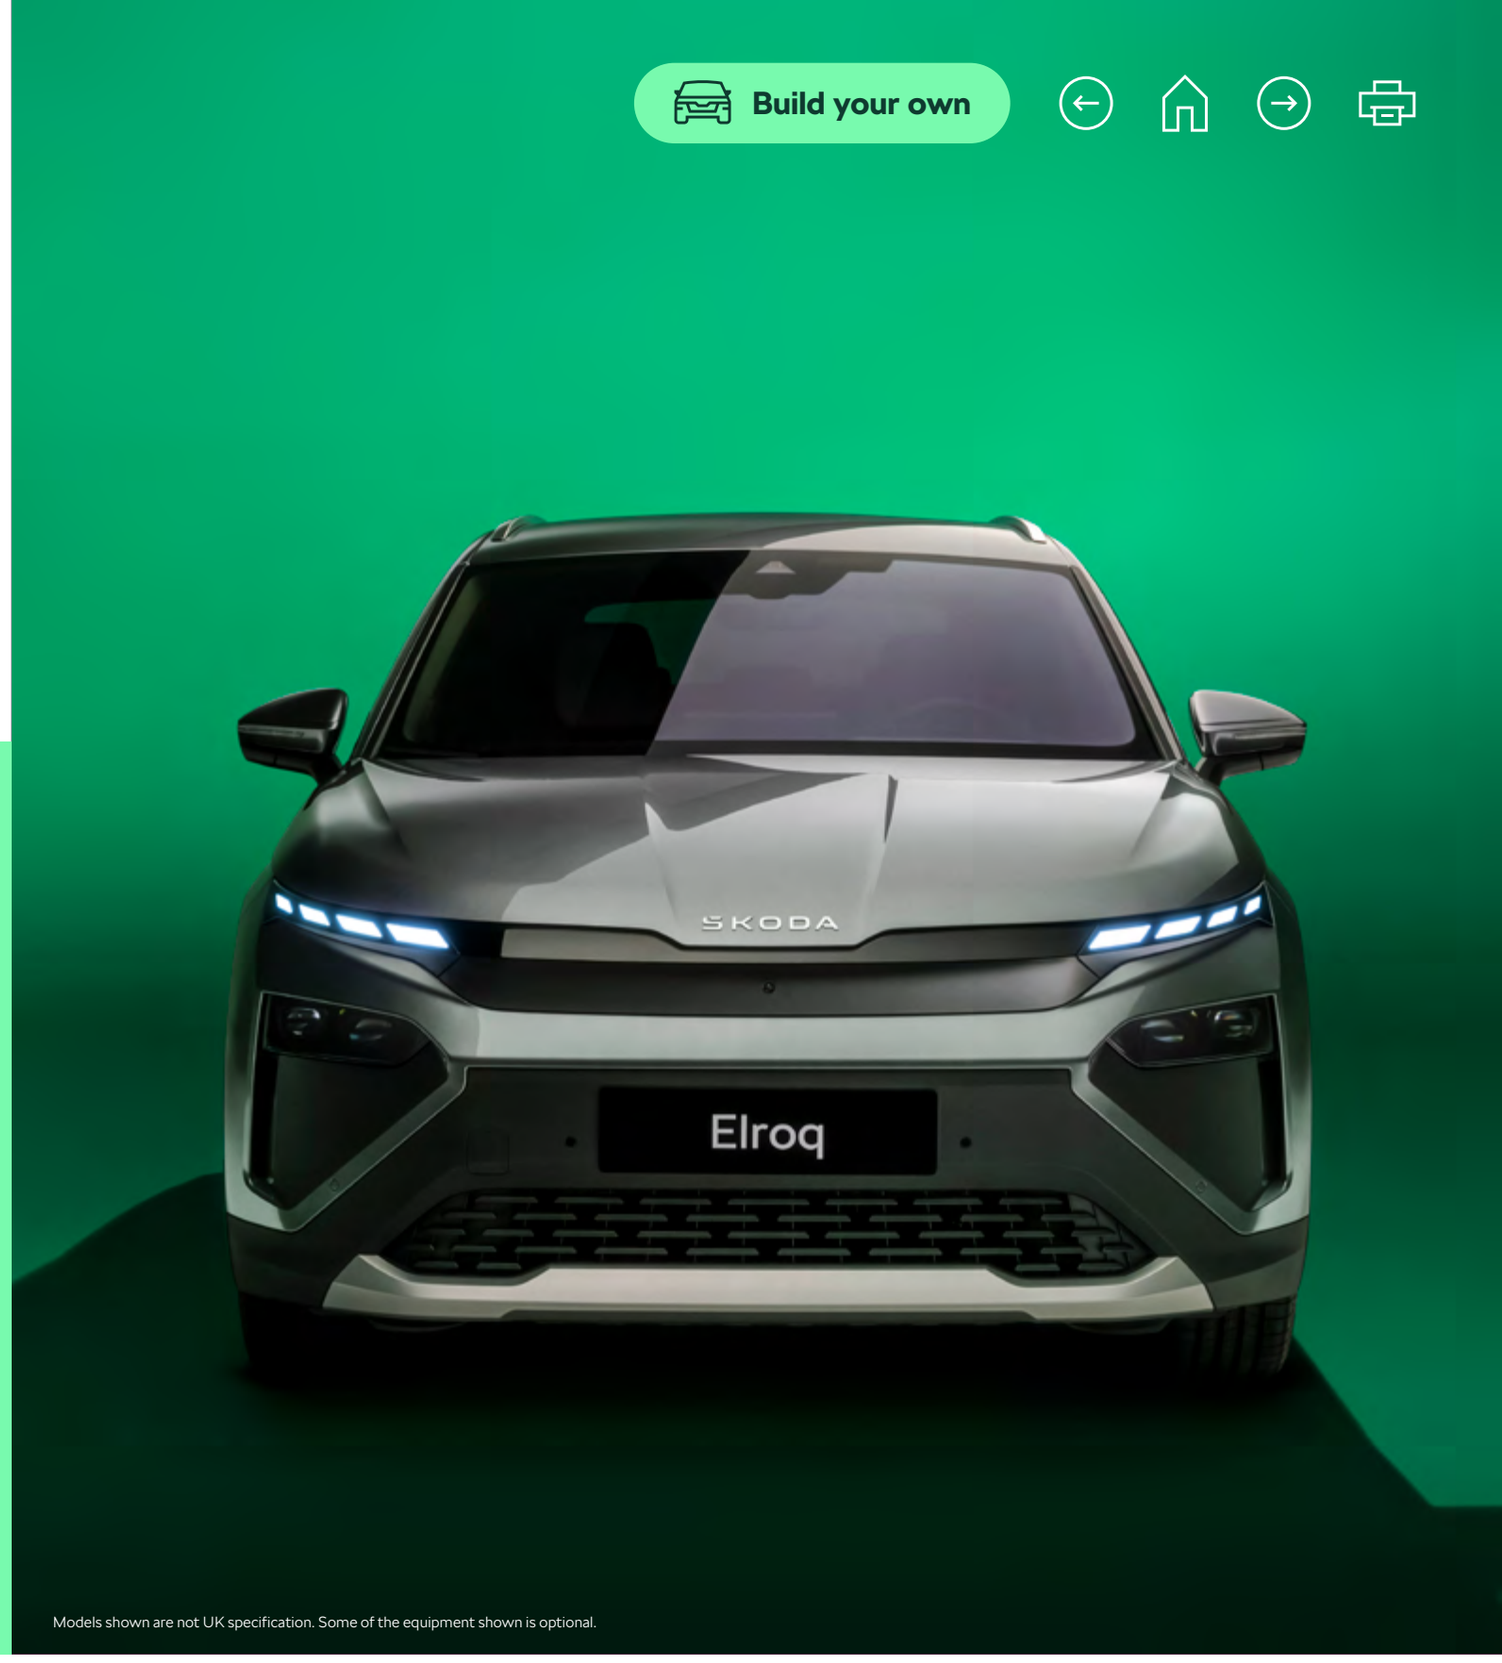
Built with sustainability in mind, the Elroq features a special material, unique dark chrome, on the exterior as well as in the cabin, which is more environmentally friendly than traditional chrome plating. The focus on sustainability is furthered by the use of recycled materials in the cabin, including upholstery as well as in the umbrella and ice scraper.

Headlight design

The split headlights create a strong, dynamic front-end which commands attention. Matrix LED headlights with integrated fog light function offer an innovative approach to safety, using 36 individual light segments to shield other road users from the highbeam. The innovative lights also offer five adaptive modes, changing their output and positioning to best suit each situation: City, Country, Highway, All-weather and Tourist (for driving in left-hand drive countries).

Dynamic signature

With its strong lines and edges, the Elroq looks powerful even before it starts moving. This is also supported by the dynamically shaped rear lights penetrated deep into the wings. The higher level of LED rear lights are also fitted with animated turn indicators, adding another attention-grabbing feature to the rear. These top rear lights also feature the animation function, which is activated when the doors are opened or closed.



Models shown are not UK specification. Some of the equipment shown is optional.

Models shown are not UK specification. Some of the equipment shown is optional.

Design with intention

Tech-Deck Face

Gone are the days of protruding safety sensor blocks interfering with attractive design. The Tech-Deck Face incorporates and hides the driver assistance sensors behind it, allowing the Elroq to focus on looking sleek and stylish.

The LED daytime running lights also effortlessly extend out from the Tech-Deck Face, creating a smooth and balanced look.

Aerodynamics and driving properties

Aerodynamics at the forefront.
To maximise the electric driving range possible, the Elroq has been designed with aerodynamics in mind. Air intakes, gently sloping roofline and optimised wheel designs ensure air resistance is minimised.

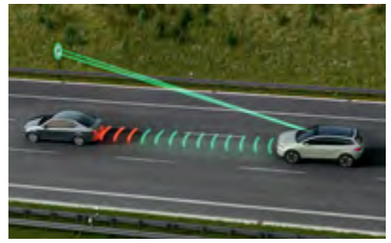
Rugged design

The Elroq shows a bold stance from every angle. Lower bumpers in unique dark chrome create a strong presence on the road, whilst dynamic sculptings create a powerful look.

Safety at the forefront

A range of active and passive safety and driver assistance systems help to keep you and your passengers safe on every journey.

Models shown are not UK specification. Some of the equipment shown is optional.

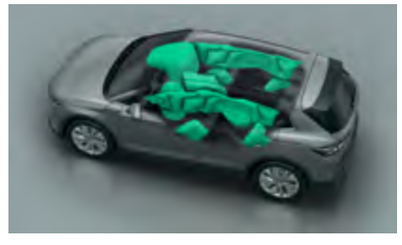


Predictive adaptive cruise control

Control your speed automatically with predictive adaptive cruise control, which uses the radar in the front grille to maintain a constant distance from the vehicle in front at speeds of 15mph or more. It also uses traffic sign recognition and GPS technology to adjust the cruise speed when necessary - typically before a turn or roundabout, or when entering an area with a lower speed limit.

Turn assist

When the vehicle is turning, sensors in the front of the vehicle detect oncoming vehicles and brakes if needed to prevent a head-on collision.



7 airbags

Seven airbags as standard, including a centre airbag for maximum occupant safety.

Lane assist plus

Helping you stay in the intended lane of travel, lane assist plus uses a camera to detect road markings, and supports steering if you veer too close to the edge.

Blind spot detection

An extra set of eyes on the road that monitors the blind spots allowing you to manoeuvre safely. An acoustic warning will also sound if the vehicle's door is opened that could collide with a vehicle, cyclist, pedestrian or electric scooter.

Park assist & remote park assist

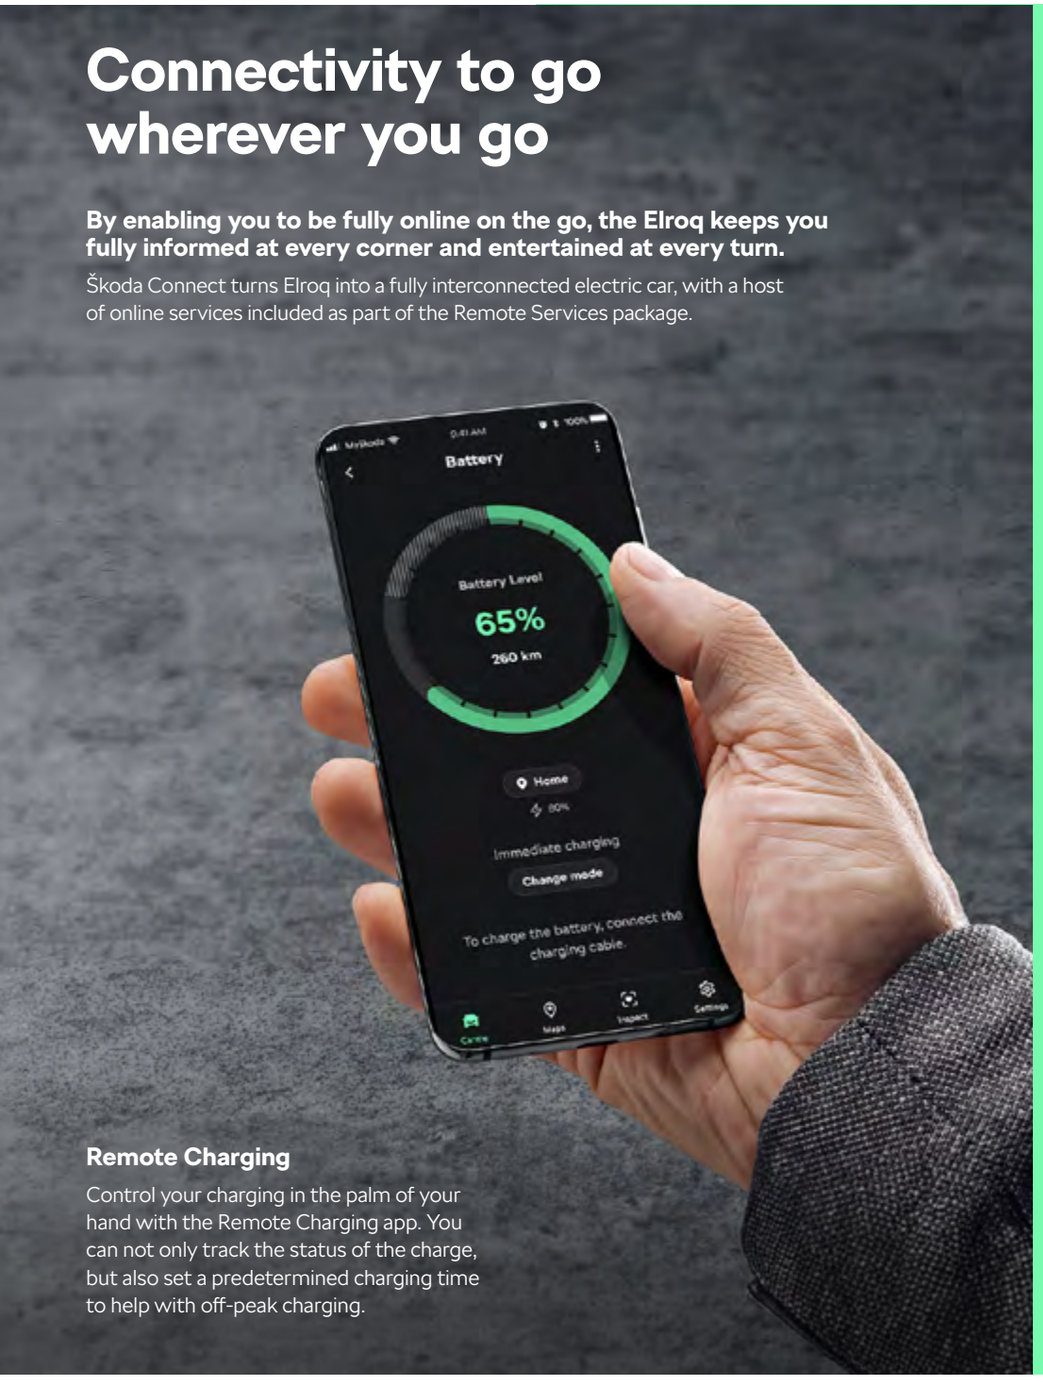
This function removes the stress of bay and parallel parking by identifying if the parking spot is big enough before automatically steering into the space. Remote park assist allows you to remotely move the car out of a parking space via the MySkoda app.

Innovation at every turn

Connectivity to go wherever you go

By enabling you to be fully online on the go, the Elroq keeps you fully informed at every corner and entertained at every turn.

Škoda Connect turns Elroq into a fully interconnected electric car, with a host of online services included as part of the Remote Services package.



Remote Charging

Control your charging in the palm of your hand with the Remote Charging app. You can not only track the status of the charge, but also set a predetermined charging time to help with off-peak charging.

Remote air conditioning

Your Elroq, your way. That's the beauty of remote air con, which lets you schedule the car to be air conditioned at a specific time, so you'll always head off in absolute comfort.

Smart Schedules

Take full control of your charging schedule. In addition to enabling you to take advantage of cheaper off-peak electricity tariffs, you can also create different charging settings based on the car's location, for example home or work. Just plug in the car and leave the rest to Smart Schedule.

This clever service also allows you to set the temperature before you jump in the car, ideal for chilly winter nights or hot summer days.

eCALL

In the event of an emergency on the road, the Elroq will automatically send an SOS signal for help to give you extra peace of mind. This is triggered as soon as the airbag or belt tensioners report a major accident.

Alternatively, you can press the manual SOS button to call the emergency services directly to report an accident or raise the alarm about another traffic incident you've witnessed.

Digital Cockpit

The Elroq showcases electric innovationat every turn. Dashboard included. Forget old-fashioned dials, here you'll find a full-colour Digital Cockpit featuring a range of display layouts that can be toggled via the steering wheel. These include Basic, Navigation,Assist Systems, and Goodbye View.

Head-up Display

Cleverly designed to avoid distraction, the augmented reality head-up display shows key driving data in a way that's easy to absorb at a glance.

Virtual driving information, such as speed, navigation, and adaptive cruise control, is shown directly on the road in front of the vehicle, allowing you to stay informed while staying in full control.

Models shown are not UK specification.
Some of the equipment shown is optional.

Škoda Connect
Find out more

Small ideas for big impact

A range of small touches collate to make the Elroq a breeze to live with. Clever concepts and practical features that make life that little bit easier.

Umbrella storage compartment

Never let a soggy day dampen your spirits again with this handy driver's door compartment. Designed to fit the original Škoda umbrella, it also cleverly drains water away from the car. Plus, the umbrella incorporates sustainable materials into its design.

Rear storage

Plenty of spaces to put all those little nicknacks, water bottles, magazines and your phone.

Sunblinds

Keep the sun out of yours and your children's eyes with manual sunblinds for the rear windows.

Rear cupholders

No need to squabble over who gets the front seat. With rear cupholders, passengers in the back sit in just as much comfort as those in the front.

Models shown are not UK specification. Some of the equipment shown is optional. Please note: Some combinations of options can cause the vehicle to be unbuildable. Please speak to your chosen **Škoda Retailer** or visit **skoda.co.uk** to configure your required specification.

Height adjustable parcel shelf

Maximise the Elroq's boot space by creating a practical shelf to store extra items on. Pop the buggy underneath and the shopping bags on top. The parcel shelf can support up to 3kg of weight.

Models shown are not UK specification. Some of the equipment shown is optional. Please note: Some combinations of options can cause the vehicle to be unbuildable. Please speak to your chosen **Škoda Retailer** or visit **skoda.co.uk** to configure your required specification.

Compact size, maximum practicality

Net programme

This set of nets reliably prevents your items from moving around, so they're just as you left them, even after a brisk trip down a winding road.

Charging cable storage

Keep your charging cable neatly stored out of the way, allowing you to use all of your boot space.

Tow bar

The Elroq can be equipped with a foldable tow bar with electric release via a switch is in the luggage compartment.

Please note, if a tow bar or tow bar preparation is not fitted on the car, the VIN plate may not show any towing weights and the car will never be eligible for towing. As such it may not be possible to retrospectively fit a tow bar if the car is not fitted with tow bar preparation at Factory. Please speak to your chosen **Škoda Retailer** to confirm the exact towing eligibility.

* WLTP combined range. Figures shown are for comparability purposes; only compare electric range figures with other vehicles tested to the same technical procedures. These figures may not reflect real life driving results, which will depend upon a number of factors including the accessories fitted (post-registration), variations in weather, driving styles, vehicle load and the starting charge of the battery. Figures for battery electric vehicles were obtained after the battery had been fully charged. Battery electric vehicles require mains electricity for charging. Data correct at 10th August 2026. Choice of wheels and other options may affect consumption and range data. Charging times will depend on various factors, including temperature, state of the battery, state of and capabilities of the charging unit and power supply. Actual charging time will vary depending on the level of charge in the battery, as well as environmental conditions. Charging times will also be affected by the charging curve for example once charging passes 80%, charging will slow to protect the battery's longevity. However, in order to preserve the usable capacity of the battery as much as possible, it is recommended to set a charging target of 80% for daily operation and use (which can be switched to 100% before long distance journeys for example)

Elroq SE L The everyday explorer

Trips around the city . The school run. The weekly shop. With the option of a 61kWh or 84kWh battery, the Elroq SE L can do it all. Including 19" Proteus silver alloy wheels, a 13" touchscreen, rear view camera and cruise control, the Elroq SE L has all the standard features you truly need.

Satellite navigation system

Heated steering wheel

Dual zone climate control

Add even bolder styling.

Driver Package

This innovative dynamic chassis control system ensures the car's suspension is constantly adapting to suit the road and driving conditions, adding both greater dynamic driving feel and comfort.

Models shown are not UK specification. Some of the equipment shown is optional. Information regarding tyre technical specifications can be found by visiting the Škoda car configurator **here**. Some combinations of options can cause the vehicle to be unbuildable. Please speak to your chosen **Škoda Retailer** or visit **skoda.co.uk** to configure your required specification.

Elroq vRS
A statement of pure performance

Delivering 340PS from dual electric motors and all-wheel drive, combining thrilling acceleration with a refined, composed ride.

The bold exterior features 20" Draconis Black alloy wheels as standard, vRS-specific bumpers, gloss black detailing, and the striking illuminated Tech-Deck Face.

For added presence, 21" Vision anthracite alloy wheels and the exclusive Hyper Green paint finish are available.

Inside, the Elroq vRS features a black Suedia microfibre upholstery, lime green stitching, and carbon-look décor. Heated sports seats with integrated headrests, a massage function for the driver, and a heated three-spoke vRS steering wheel all as standard—blending comfort with performance-focused design.

Elroq
vRS

Trained parking

21" Vision Anthracite Alloy Wheels

Heated rear seats & tri-zone climate control

Recommended Options

Maxx package

Let the Elroq take care of parking while you settle into front seats that offer electric adjustment and built-in massage for ultimate comfort. Rear passengers enjoy personalised comfort too, thanks to tri-zone climate control that caters to everyone on board.

Winter Package

Stay warm and in control, whatever the weather. A heated windscreen clears frost in moments, while heated rear seats keep passengers cosy. With tri-zone climate control, everyone on board can enjoy their ideal temperature—even on the coldest days.

21" Vision Anthracite Alloy Wheels

Add an even sportier edge to your Elroq with these striking alloy wheels

Models shown are not UK specification. Some of the equipment shown is optional. Information regarding tyre technical specifications can be found by visiting the Škoda car configurator **here**. Some combinations of options can cause the vehicle to be unbuildable. Please speak to your chosen **Škoda Retailer** or visit **skoda.co.uk** to configure your required specification.

Models shown are not UK specification. Some of the equipment shown is optional.

Loft
Design Selection

Inspired by a stylish living room, the cabin with Loft interior features a large presence of anthracite grey. The seats are upholstered in a dark grey fabric, complemented by artificial leather and moss green contrast stitching.

Sustainability in mind

When designing the Elroq's interior, the ecological impact was at the forefront. The fabric used on the seats, door panels and centre armrest is made from 78% recycled PET, for example from drinks bottles, combined with 6% recycled clothing fibres.

Storage

Designed for family life, all Elroq interiors come with a whole heap of storage for all your things.

Models shown are not UK specification. Some of the equipment shown is optional.

Lodge
Design Selection

With two-tone black and light grey materials used throughout the cabin, the Lodge interior stands out from the crowd, and will leave any passenger mesmerised by the cool and stylish look of your car.

Unique materials

The Lodge interior features a special material called Technofil, which is composed of 75% ECONYL© fibres and 25% polyester. ECONYL© yarns are made from recycled nylon waste, such as fishing nets, fabric scraps and carpets destined for landfill. All together this gives seat upholstery a sustainability-focused and unique feeling interior.

Orange accents

Add some funk and quirkiness to your Elroq with orange seatbelts and stitching. Adding a splash of colour and character.

Models shown are not UK specification. Some of the equipment shown is optional. * The seat upholstery consists of a combination of genuine and synthetic leather. The seat cushion, centre panel and backrest of the front row seats and the seats on the left and right of the second row are made from genuine leather.

Suite
Design Selection

First impressions count. With this premium design option they'll count for more thanks to the inclusion of soft black leather* throughout which ensures you'll always travel in luxury and arrive in style.

Premium look & feel

High-quality materials are used throughout the cabin, with leather & artificial leather covering the seats, dashboard, door inserts and more. Complemented by subtle cognac stitching, the Suite interior transforms the Elroq's interior.

Models shown are not UK specification. Some of the equipment shown is optional.

SportLine
Design Selection

With a dynamic exterior, the Elroq SportLine needs an interior to match. Dominated by black materials, the SportLine interior keeps your focus on the driving feel. Sports seats with integrated headrests keep you supported. Whilst a combination of microsuede and artificial leather with contrast grey stitching adds a premium feel.

Sports feel

The SportLine interior is complemented by carbon-effect decor, adding to the dynamic look and feel. Whilst stainless steel pedals ensure every touch of the accelerator feels as special as the times before.

3-spoke leather heated sports multi-function steering wheel with paddles for recuperation level selection

The three-spoke leather heated sports multifunction leather sports steering wheel comes as standard and allows numerous vehicle functions to be controlled from its user-friendly buttons and knurled wheels. The leather-covered steering wheel rim features black stitching, while the lower spoke has a badge bearing the SportLine lettering.

vRS lounge
Design Selection

Inspired by an active lifestyle, the vRS Lounge design selection features a refined combination of soft microsuede and premium artificial leather. Accented with bold lime green highlights, this dynamic interior radiates a sporty character that's impossible to overlook

Sports feel

Heated front sports seats with integrated head restraints provide outstanding support, while stainless-steel pedal covers add a dynamic, motorsport-inspired touch. The electric driver's seat offers lumbar support, and a built-in massage and memory function, ensuring a ride that's as comfortable as it is exhilarating.

Plus Package
Raise the game

A specially selected range of comfort, practicality and safety features take your Elroq to the next level.

Full LED Matrix headlights

Style and function. These upgraded headlights not only look the part, but they also blank out part of their beam to prevent dazzling oncoming traffic, provide additional light when cornering, and include a fog light function.

Electrically operated tailgate with virtual pedal

Hands full of shopping bags? Simply kick your foot underneath the tailgate and it will open automatically.

Rear side airbags

Provide additional safety for rear passengers, with two further airbags. These airbags help prevent a collision between your passengers head and the rear door.

Rear lights with animated indicators

Show where you are going with flair, with rear indicators that scroll.

Charging cable storage net

Keep your charging cable neatly out of the way, allowing you to use all of the boot for your luggage.

Models shown are not UK specification. Some of the equipment shown is optional. Please note: Some combinations of options can cause the vehicle to be unbuildable. Please speak to your chosen **Škoda Retailer** or visit **skoda.co.uk** to configure your required specification.

Advanced Package
Take it to another level

Includes features shown, and all those in Plus Package

Technology is at the heart of the Elroq.
And with a range of supportive and elevating technological features, the Advanced Package ensures maximum comfort.

Electrically adjustable drivers seat with massage function

Set your seat just the way you like it, with 6-way electric adjustments for the drivers seat. Plus, make long journeys as comfortable as possible with massage function for ultimate comfort.

Storage features

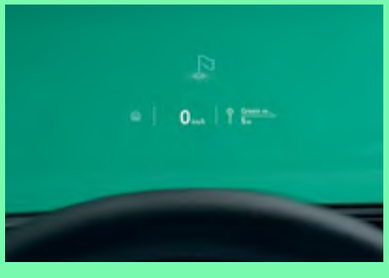
Add the ultimate practicality features with:
- Boot net programme
- Cargo elements
- Storage compartment for rear seats
- Cable bag.

Rear window blinds

Keep the sun out of the face of rear passengers with manual window blinds.

Area view

Gain an eye in the sky when parking. Area view gives you a 360 degree view around your car, helping to prevent collisions when parking.



Head-up display

Have key driving information such as your speed, map directions and road speed limit shown to you, all whilst keeping your eyes on the road ahead.

CANTON sound system

Set the perfect tone for every journey with this set of speakers and digital equaliser. Created in collaboration with German audio experts CANTON, you can be confident every album, radio show or podcast will be pitch perfect as the system has been fine-tuned to suit the Elroq's interior.

Models shown are not UK specification. Some of the equipment shown is optional. Please note: Some combinations of options can cause the vehicle to be unbuildable. Please speak to your chosen **Škoda Retailer** or visit **skoda.co.uk** to configure your required specification.

Maxx Package
Own the ultimate Elroq

Includes features shown, and all those in Plus and Advanced Packages

Offering the greatest selection of features, the Maxx Package ensures you and all your passengers will travel in heightened luxury.

Park assist with trained parking

Have your Elroq park itself. You simply control the acceleration and braking, whilst the car automatically manoeuvres into the parallel or bay parking space.

Trained Parking allows your Elroq to automatically park itself in a familiar setting such as your home or workplace from as far as 50m away.

Remote park assist

Somebody parked too close to you? You can navigate your Elroq out of a parking space remotely via the MySkoda app, moving it straight forwards or backwards.

Electrically adjustable front seats with massage function

Extend the comfort of an electric seat with massage to the front passenger as well as the driver.

Tri-zone climate control

Keep your rear passengers happy, as they can set their own cabin temperature - independently of the driver and front passenger sections.

Models shown are not UK specification. Some of the equipment shown is optional. Please note: Some combinations of options can cause the vehicle to be unbuildable. Please speak to your chosen **Škoda Retailer** or visit **skoda.co.uk** to configure your required specification.

Figures shown are for comparability purposes; only compare fuel consumption, CO_2 and electric range figures with other vehicles tested to the same technical procedures. These figures may not reflect real life driving results, which will depend upon a number of factors including the accessories fitted (post-registration), variations in weather, driving styles, vehicle load and the starting charge of the battery. Figures for battery electric vehicles were obtained after the battery had been fully charged. Battery electric vehicles require mains electricity for charging. Charging times will depend on various factors, including temperature, state of the battery, state of and capabilities of the charging unit and power supply. Actual charging time will vary depending on the level of charge in the battery, as well as environmental conditions. Charging times will also be affected by the charging curve for example once charging passes 80%, charging will slow to protect the battery's longevity. The availability of the maximum electrical output could be limited. The amount of power available in individual driving situations depends on various factors, such as ambient temperature and the charge status, temperature and condition or physical age of the high-voltage battery. Data correct at production from 10th August 2026. Choice of wheels and other options may affect consumption and range data. For more information, please see **skoda.co.uk/owners/wltp-info** or consult your chosen **Škoda Retailer**.

Information regarding tyre technical specifications can be found by visiting the Škoda car configurator **here**.

* Please note: If a tow bar or tow bar preparation is not fitted on the car, the VIN plate may not show any towing weights and the car will never be eligible for towing. As such it may not be possible to retrospectively fit a tow bar if the car is not fitted with tow bar preparation at Factory. Please speak to your chosen **Škoda Retailer** to confirm the exact towing eligibility.

Additional information

Škoda Financial Services

Škoda Financial Services offer a wide range of finance, insurance and servicing packages designed to fit your needs. We specialise in providing simple and convenient funding options for Škoda drivers.

Be free to make the switch to electric with Škoda Lease&Care, a leasing agreement with a level of servicing included in your monthly payments, that allows you to drive a Škoda Elroq without needing to own it.

The simplicity of this finance plan means all servicing and car costs are covered in one easy, single monthly payment. Just follow these three simple steps:

1. Select your chosen Škoda Elroq.

2. Choose how long you want it for and how many miles you drive.

3. Choose a care package built around you and your driving style.

With no lump sum to pay at the end of your agreement, you're free to move straight into your next Škoda or stay in your Elroq for longer, as all options are built around you.

Škoda Financial Services can also offer a Solutions Personal Contract Plan, hire purchase or Contract Hire package for your Škoda Elroq. Please speak to your chosen **Škoda Retailer** to discuss your requirements and for your personalised quotation today.

An offer of finance depends on certain conditions. Subject to status. Available to 18s and over in the UK only. Terms and conditions apply. Škoda Financial Services.

Škoda Car Insurance

Complimentary Škoda Drive Away Insurance

Every new and Approved Used Škoda comes with five days' complimentary insurance cover, getting you on the road quickly and easily so you can enjoy the things that matter. Škoda Drive Away Insurance is designed specifically for your Škoda and guarantees that your car will be repaired in a Škoda Approved Repairer. Speak to your chosen **Škoda Retailer** for more details.

Subject to eligibility.

We will also provide you with an annual quote, with no additional questions asked, so you can continue to enjoy all the benefits Škoda Car Insurance offers.

Read on for more details.

Škoda Car Insurance

Škoda Car Insurance offers quality service and support when you need it most, with a policy tailored specifically for your Škoda. Just as you'd expect from Škoda, our annual car insurance provides comprehensive cover, with lots of benefits included at no extra cost.

Insure your car with Škoda and relax knowing we only use Škoda trained technicians, who know your car inside out, and Škoda genuine parts*, giving you the peace of mind that your Škoda will be repaired to the same high standards as before and to original manufacturer specifications.

You also have the added reassurance of electric charging cables and home charger cover, as well as cover for accidents caused by any electric charging cables, when attached to your car. Plus, we'll cover damage to your car's electric battery, whether it is owned or leased, if it becomes damaged as a result of an insured incident.

*Excludes windscreen claims.

To get a quote or find out more, visit **insurewithskoda.vwfs.co.uk/car-insurance** Alternatively, call us on **0330 678 6328**. Lines are open 8am-8pm Monday to Friday and 9am-5pm Saturday and Bank Holidays. Calls may be recorded.

Skoda Car insurance is arranged, underwritten and administered by Liverpool Victoria Insurance Company Limited.

Volkswagen Financial Services Limited (VWFS UK) acts as an introducer to Liverpool Victoria Insurance Company Limited in respect of Skoda Car Insurance, registered in England and Wales Company Number 2835230 (Registered Office Address: Brunswick Court, Yeomans Drive, Blakelands, Milton Keynes MK14 5LR). VWFS UK is authorised and regulated by the Financial Conduct Authority, registration number 311988. Authorisation details for both organisations can be checked on the Financial Services Register by visiting https://www.fca.org.uk/firms/financial-services-register.

Service and maintenance

Our range of servicing and maintenance plans will help to keep your Škoda in prime condition. Plus, the price is fixed so you won't be caught out by any unbudgeted costs.

All our service plans use genuine Škoda approved parts and trained technicians so you know your car is in the hands of experts. Parts and labour also come with two years warranty too.

Service Plans for Electric Vehicles under one year old

This includes your vehicles first service, covering you for two years for a fixed payment, protecting you from inflation. You can choose to pay upfront or monthly. The Service Plan includes a maximum of one inspection service, one pollen filter change and one brake fluid change. Electric vehicle services are set to a fixed regime.

Our service plans are designed for customers that travel 10,000 miles or less per year. If you travel over 10,000 miles per year, or would prefer to add maintenance or tyres, then speak to your chosen **Škoda Retailer** to create a more tailored service plan.

All electric vehicles must be set to a fixed service regime.. Exclusions and terms and conditions apply. Offer is available to retail customers only from participating Škoda Retailers. Offers may be varied or withdrawn at any time. Freepost Škoda Financial Services.

Škoda Financial Services is a trading name of Volkswagen Financial Services (UK) Limited, Brunswick Court, Yeomans Drive, Blakelands, Milton Keynes MK14 5LR. Registered in England number 2835230.

Service intervals

Your Elroq is supplied with a fixed service regime to ensure that your car stays in the best possible shape. A service light will show when the car requires inspection at 24 months.

To keep your Elroq operating as it should we recommend the following work is carried our every 24 months:

> Inspection – we'll make sure all the components and systems work as they should.
> Pollen Filter – we'll renew the Pollen Filter to keep your vehicle cabin clear of dust and odours.
> Brake Fluid – we'll renew your brake fluid to maintain braking efficiency and function.

Roadside assistance

A one year, European-wide, unlimited mileage Škoda Assistance policy comes free of charge with every new Škoda. There's a team of specially trained technicians who carry the right diagnostic equipment and parts to get you back on the road as quickly as possible in the unfortunate event of a breakdown.

Škoda Roadside Assistance 24-hour helpline: 0330 100 3243.

Provided in partnership with the AA. Exclusions and terms and conditions apply. For details please speak to your chosen **Škoda Retailer**.

Customer services

Talk to us on **03330 037 504**. No matter what the query, our dedicated call centre is always ready to listen. No matter how big or small the request, speak to one of our customer care advisors to see if they can help. The call centre is open Monday to Friday from 8.30am-5.30pm. You can also talk to one our advisors via live chat, open Monday to Sunday from 8am-10pm.

A network that's here to help

You can be sure that as a Škoda customer, your chosen **Škoda Retailer** will look after you from the moment you walk through the door and throughout the life of your Škoda. Your Elroq will be serviced and maintained by specially trained Škoda technicians, and when you need a spare part you'll be happy to know that most are held in stock, or ordered within 24 hours. So if top class customer satisfaction is what you're after, the Škoda network will be there for you.

Additional information – continued

Motability

People who are in receipt of one of the following allowances, and have at least 12 months remaining on their reward, may be eligible for a vehicle via the Motability scheme.

Enhanced Rate of the Mobility Component of Personal Independence Payment (PIP), Higher Rate Mobility Component of Disability Living Allowance (HRMC DLA), War Pensioners' Mobility Supplement (WPMS), Armed Forces Independence Payment (AFIP), Higher Rate Mobility Component of the Child Disability Payment (CDP), or Enhanced Rate Mobility Component of the Adult Disability Payment (ADP).

For full details of the scheme, current model availability and pricing, please contact the Motability specialist at your chosen **Škoda Retailer**.

Warranty

Peace of mind with a Škoda warranty

In the first two years of owning your car, you'll get the peace of mind of a two year unlimited mileage warranty. In addition, you'll also get a further warranty on new vehicles supplied through the appointed retail network until the vehicle has completed 60,000 miles or the end of the third year, whichever is sooner. Your Elroq also benefits from a three-year paint warranty and 12-year body protection warranty. Exclusions and terms and conditions apply.

Owning a Škoda

Three-year vehicle warranty from new
First two years unlimited mileage.
Third year with 60,000 mile limitation, whichever is sooner.
Four to five years Optional Extended Warranty.

Three-year paint warranty
Up to 12 years body protection.

Exclusions and limitations

Wear and tear components will only be considered under the terms of the warranty for the first of six months or 6,500 miles, whichever is soonest. These include, but are not limited to brake linings and disc pads, clutch release bearings, clutch pressure plates and centre plates, tyres, wiper blades, seat and backrest covers, floor coverings, spark plugs, batteries for key fobs and alarms, light bulbs and shock absorbers. Mechanical adjustments including but not limited to adjustments to doors, flaps, boot lids, bonnets and sunroof, brake adjustment, clutch adjustment, v belt adjustment, headlight adjustment, steering geometry adjustments and wheel balancing are excluded.

Damage (including but not limited to the following) is excluded:

> Damage caused by your failure to take all reasonable steps to prevent mechanical damage from occurring.
> Damage or defects caused by not having the vehicle serviced in accordance with the manufacturer's guidelines.
> Damage or defects caused by improper use of the vehicle, neglect or use of the vehicle for motor sports activities.
> Damage caused by an accident.
> Damage to paintwork or chrome caused by external influences, such as climatic, chemical or industrial pollution.
> Damage resulting from the use of non-original replacement parts.

Routine maintenance and servicing is not covered by the warranty. Incidental or consequential costs such as hotel charges, car hire, and loss of personal effects or income are not recoverable under the terms of the warranty.

8 Year high-voltage battery Warranty

Free repair of the high-voltage battery, if the damage occurs within 8 years or before reaching a mileage of 100,000 miles (whichever occurs first) from the beginning of the Škoda warranty. Reduction in the capacity of the high-voltage battery over time is a natural feature of technology and does not constitute a defect within the meaning of the Škoda warranty (this is with regards to a natural lock), provided that this value measured by the Škoda service partner does not fall below 70% of the total usable capacity before the expiry of 8 years or before the achievement of 100,000 miles (whichever comes first) from the beginning of the Škoda warranty.

In the event of a claim under the Škoda warranty regarding damage to the high-voltage battery, the capacity of the high-voltage battery after fault rectification is at least 70% of the total usable capacity, and this is in consideration of all relevant factors including the age, condition and the mileage of the vehicle. There shall be no further claims arising from the Škoda Warranty. In particular, no claim for replacement, no right of withdrawal, no claim to purchase price reduction, or provision of a replacement car for the duration of repair and compensation.

Adding that little extra to your car

If the standard specification and factory fitted options aren't enough for you, then why not take a look at our range of Retailer fitted accessories? A separate accessories brochure can be found at your chosen **Škoda Retailer**, or can be viewed online at: **skoda.co.uk/owners/accessories-and-merchandise**

Figures shown are for comparability purposes; only compare fuel consumption, CO_2 and electric range figures with other vehicles tested to the same technical procedures. These figures may not reflect real life driving results, which will depend upon a number of factors including the accessories fitted (post-registration), variations in weather, driving styles, vehicle load and the starting charge of the battery. In order to preserve the usable capacity of the battery as much as possible, it is recommended to set a charging target of 80% for daily operation and use (which can be switched to 100% before long distance journeys for example). Figures for battery electric vehicles were obtained after the battery had been fully charged. Battery electric vehicles require mains electricity for charging. Data correct at 10th August 2026. Choice of wheels and other options may affect consumption and range data. For more information, please see **skoda.co.uk/owners/wltp-info** or consult your chosen **Škoda Retailer**.

Škoda UK may change RRPs at any time (this includes where there are government changes in regulation and/or legislation). There may be a delay to any RRP displaying correctly on our materials. Always obtain prices from your chosen **Škoda Retailer**.
